Scope of business

- Insurance activities
- Operations related to insurance and reinsurance

Komerční pojišťovna, a.s. (hereinafter “KP”, “Komerční pojišťovna” or the “Company”) has implemented a bank-insurance business model, which dates back to 2001, when Komerční banka, a.s. (hereinafter “KB” or “Komerční banka”) was acquired by Société Générale S.A. (hereinafter “SG” or “Société Générale”). KP therefore cooperates primarily with companies that form part of the KB Group. In addition to KB’s largest network, other sales networks comprise ESSOX, s.r.o. (hereinafter “ESSOX”), Modrá pyramida stavební spořitelna, a.s (hereinafter “Modrá pyramida”) and Penzijní společnost Komerční banky, a.s. (hereinafter “KB PS”).

Another significant distribution channel is represented by external partners being insurance brokers (hereinafter “external business partners”) with whom KP has cooperated since 2009, building on this business strategy successfully.

KP has been using the status of universal insurance company, which allows it to provide services in the area of life and non-life insurance, not only in the Czech Republic, but also within EU on the basis of a unified licence. Since 2008, KP has cooperated successfully with foreign companies from SG Group, offering its services in Romania and Germany.

SOGECAP, S.A. insurance company (hereinafter “SOGECAP”) is a majority owner of 51 % of KP shares and a 100% subsidiary company of SG; KB is a minority shareholder with 49% share. Thanks to this shareholder structure, KP has direct access to using high-quality know-how and long-term experience in the area of financial counselling.

Komerční pojišťovna is a part of the financial group of Komerční banka and of the financial group of Société Générale as well. Therefore, clients of KB can make use of complete financial counselling, including insurance.

Komerční pojišťovna has no branches abroad.

Foreword of the Chairman of the Board of Directors

In spite of a very challenging year 2021, Komerční pojišťovna achieved very good results in the difficult environment of pandemic Covid-19 crisis.

Gross written premium of non-life and risk life products recorded two-digit growth rate, which is very encouraging for us, as our strategy focus on these businesses. Gross written premium decreased in capital life insurance. Česká národní banka had increased several times a two weeks interest rate, which increased rates of short-term saving solution and make our long term offer less competitive. Despite this KP placed 4th position within Czech market in life portfolio it terms of gross written premium.

Komerční pojišťovna achieved net result of 454 MCZK in 2021 according IFRS used for consolidation with Komerční banka. It is a very good result. In addition, KP ends the year 2021 with a remarkable level of provision for bonuses and discounts of 1,598 MCZK, which is more than 5% of our mathematic reserves, which will help KP to increase rates significantly on our capital life insurance.

KP tried to find most efficient solutions within Covid-19 pandemic times for our employees, partners, and customers. KP offered home office to their employees. The communication with partners was organised online. KP offered remote solutions for our customers too.

KP finished the IT migration to the AIA 4 solution in 2021, and also completed moving to the new head office in Stodůlky. Thanks to this KP will benefit from the synergy across the KB Group.

External partners reached good sales in 2021, notably on property insurance. KP implemented a common sales-platform called Sako, which helps to develop KP's sales.

Strong sales support also took place in KB's distribution network. New group of insurance specialists was created. They focus mainly on professional advice and the quality of insurance contracts. KP also paid intensive attention to the standard network of bankers and prepared an extensive training program for them. These and other activities led to a significant increase in sales in the tens of percent for risk life products. This cooperation will produce very good commercial results in the future.

All these good results will help KP to finance our digital projects. Komerční pojišťovna intended to build a completed digital offer of insurance products for all our partners. KP is also participating in the new digital bank project to reach even better results next year.

Clients' satisfaction and loyalty were again measured by the net promoter score, the metric to assess the willingness of clients to recommend a certain company, product or service to their friends, relatives, or colleagues. KP scored 42 in post-transaction NPS, which is outstanding value reflecting the attention we pay to clients' needs.

And in the end, KP took the first place in the category Best Life Insurance Company 2021 on the market (Hospodářské noviny Best Insurance House award).

Komerční pojišťovna will continue to fulfill its commitment to clients, providing them innovative products and digital solutions.

Gaël Loaec
Chairman of the Board of Directors and CEO

| Report of the Board of Directors

Komerční pojišťovna, member of Société Générale financial group, provides life and non-life insurance products, as well as other types of insurance complementing suitably the banking and financial products of SG Group partners. The products of KP are namely sold by members of the KB financial group, especially the distribution network of Komerční banka and Modrá pyramida, but also by external business partners. Komerční pojišťovna has been using single licences to provide services within the framework of the entire EU, also cooperating with partner companies from the SG Group in Germany and Romania, as well as outside the Société Générale Group in Bulgaria.

Macroeconomic overview of 2021

In 2021, Czech economy grew preliminarily by 3.3%¹. The growth of gross added value was most significantly influenced by the development in industry, while on the contrary, foreign demand had a negative impact. Average inflation rate amounted to 3.8%² in 2021. As of the end of 2021, the share of unemployed persons amounted to 3.5%³ according to the methodology of the Ministry of Labour and Social Affairs. That means a decrease by 5 percentage points as opposed to December 2020.

Komerční pojišťovna's strategy

Vision

- To be a respected and reliable insurance company offering attractive and transparent products
- To develop, innovate, and sustain a long-term sustainable growth with the aim of satisfying clients, distributors, shareholders, and employees of KP
- To increase permanently the comfort and quality of services for KP clients and partners
- To create a company culture that will support the involvement of employees, open communication, team spirit and cooperation.

The development of insurance market in the Czech Republic

Total written premiums increased by 4.4% year on year to 147.1 billion CZK in 2021 on the insurance market in the Czech Republic. The total volume of insurance premiums in life insurance amounted to 48.2 billion CZK, which is 1.5% more year on year. The total volume of non-life insurance amounted to 98.8 billion CZK and increased by 5.8% year on year.

The position of KP on the insurance market

In 2021, Komerční pojišťovna achieved good business results, and reached 7.3 billion CZK in the area of written premiums. Depending on product type, KP ensured appreciation of 0.5-1.2% for its clients in 2021. Komerční pojišťovna has ranked among top five insurance companies on the Czech market in the segment of life insurance for a decade. At the end of 2021, Komerční pojišťovna achieved a market share of 11.2% (calculated as the ratio of gross life insurance premiums written to total gross life insurance premiums written of CAP members according to Czech accounting standards).

Over the past nine years, Komerční pojišťovna won significant awards eight times in a row in a prestigious competition organized by *Hospodářské noviny*, called *Nejlepší banka* (the best bank) and *Nejlepší pojišťovna* (the best insurance company) 2021. Being awarded with the title of *The Best Insurance Company for 2021* and ranking second best in the category of *Life-insurance Company Most Favourable to Clients* helped the company to further strengthen its firm position on the domestic insurance market.

Komerční pojišťovna continued with successful cooperation with external partners being insurance brokers, whereas the volume of total written premiums for risk life insurance offered by these partners has been growing for several years in a row; it grew by 13% in 2021. Risk life insurance was also successful in the network of *Komerční banka* and *Modrá pyramida*. In total, risk life insurance marked an y/y increase in written premiums by 12% in 2021. Non-life insurance property an interannual growth by 17%, especially thanks to property insurance. Long-term cooperation in the area of non-life insurance with partner companies from *Société Générale Group* abroad also continued in 2021.

News in 2021

Client satisfaction has been the primary goal of product development. In 2021, Komerční pojišťovna paid intensive attention to existing products to make them comparable with the offer on the market, and to ensure that they meet the needs of the clients.

Limits for liability insurance were increased in the area of KP non-life insurance. Now, the clients can arrange for liability insurance with the limit of insurance benefits up to 10 and 20 million CZK.

Throughout 2021, in reaction to limited travelling options due to the pandemic situation, Komerční pojišťovna automatically provided insurance coverage within the framework of travelling around the Czech Republic to clients of *Komerční banka*, who took up travelling insurance for their debit cards. The conditions of travelling insurance for holders of golden and premium cards were also improved. Limits for medical expenses were increased, the period of insurance was extended to 90 days, and the condition of joint travelling with the card holder was cancelled. Some exclusions were removed for the benefit of the client, and insurance protection was modified for other risks in such a way as to make the content more corresponding to current requirements of clients.

With life insurance products, Komerční pojišťovna prepared an offer of *TEAM* group life insurance for the insurance of company employees.

In the area of investment life insurance, Komerční pojišťovna focused on the extension of the offer of funds within the framework of *Vital Invest* investment life insurance. Throughout 2021, further guaranteed funds were introduced – *Protective 11*, *Protective 12*, and *Protective 13* funds, which enabled interesting investments in structured bonds for the clients with the potential of appreciation exceeding the guaranteed return on investment.

Marketing communication

In 2021, the Company focused mainly on supporting the sale of key products, specifically property insurance *MojePojištění majetku* and life insurance *MojeJistota*. The spring and autumn campaign focused on these products, and so did the year-long on-line campaign.

Komerční pojišťovna also paid intensive attention to social media, which form an inseparable part of communication at present time.

In cooperation with the press office of Komerční banka, the reputation of Komerční pojišťovna continues to be built up successfully among professional public as well. In 2021, KP released several press releases through the Bank, which were distributed to journalists and placed on the website of Komerční banka.

The main goal for 2022 is to maintain the existing intensity of communication and to try out new communication formats. Thanks to the new website of Komerční pojišťovna, we will have more options to achieve this. In the area of marketing communication, Komerční pojišťovna plans to focus more on the long-term support of the risk life insurance product for employees in the segment of small and medium-sized companies.

Digitization

Key digital projects of Komerční pojišťovna were launched in 2021. New website was introduced, based on modern technologies that are fully in synergy with the web platforms of Komerční banka Group. KP managed to develop and put in operation a digital application for reporting insurance events in all the products of the insurance company. Client simply enter his/her personal identification data to report an insurance event online from any device (desktop, cell phone, tablet, etc.).

The plan for 2022 is to launch advanced monitoring tools within the framework of on-line campaigns and in the application of digital reporting of damages. A pilot launch of a conversation tool based on artificial intelligence represents yet another goal.

Product portfolio

1. Investment and Capital Life Insurance – Vital Product family

Komerční pojišťovna offers a number of products allowing the clients to create financial reserve for the future.

Included among these, there are:

- **Vital Invest investment life insurance** with a wide range of funds, including a fund with guaranteed appreciation and guaranteed return on investment in the event of death of the insured;
- **Program Vital capital life insurance**, which allows employers to assist their employees in securing themselves for their retirement using tax benefits;
- **Vital Premium life insurance** with guaranteed appreciation, which is offered to VIP clients of KB in two tranches – EUR and USD;
- **Vital Platinum Private investment life insurance** for private clients of KB, which offers a broad range of funds, including funds with guaranteed appreciation and guaranteed return on investment in the event of death of the insured.

2. Risk life insurance

Risk life insurance forms a significant part of the offer

of Komerční pojišťovna, covering key life risks of clients and helping them to overcome financial losses in case of unexpected events, such as, for example, the granting of invalidity pension, death, long-term illness, or involuntary loss of job.

Included among these, there are:

- **MojeJistota/ Elán universal life insurance** with a broad range of coverage of insurance risks from which the client can freely choose, including as a novelty an option to insure children;
- **Risk life insurance for consumer loans and mortgages**, which covers loan instalments or repays the loan balance for the client in case of unexpected events.
- **TEAM group life insurance**, offering companies to insure their employees, covering the risks of death, injury, severe disease, or invalidity.

3. Non-life insurance

Key representatives in this area are MojePojištění majetku and Majetek – a complex insurance of real property, household, and liability. They are unique on the Czech market of property insurance, namely thanks to the fact that this insurance prevents property underinsurance.

KB offers non-life insurance **Merlin**, **Merlin Junior** and **ProfiMerlin** covering the loss and misuse of payment (debit and credit) cards. Apart from card misuse, they cover other risks, too – the theft and misuse of a cell phone, the loss of keys or personal identification documents, etc. KP offers this insurance to payment cards of KB and other companies in the group. Among other non-life insurance products, there is payment insurance **MojePojištění plateb** and **ProfiPojištění**, which secures finances to settle regular monthly expenses from KB client's current or business account in case of long-term inability to work, invalidity, or sudden death.

The offer is completed by travel insurance to cover the full scope of risks associated with travelling. The clients can take up independent travel insurance in a year-long version or for the individual travels, at any branch of Komerční banka, via the Internet, by means of contact centre of Komerční banka, or via a mobile application Mobilní banka from KB, which is used more and more frequently.

The product of travel insurance to payment cards is also cooperation by Komerční pojišťovna within the framework of communication with German Hanseatic bank.

Internal processes in 2021

KP has implemented and supported a permanent development of electronic communication associated with the option to report insurance events. The clients of the insurance company perceive this development positively – together with the speeding up and shortening of the liquidation process in the most frequent risks of life insurance.

Within the framework of optimizing the internal processes, KP has been using strong monitoring, which is connected both to creating an audit trace and to providing resources for analyses with the aim to find optimal and most efficient ways to process client requests. We manage to improve customer satisfaction thanks to continuous research of client satisfaction rate and adherence to internal standards for the speed and quality of responses to client suggestions and requests.

As of the end of 2021, a number of internal processes were updated in connection with the long-term planned modification of the main information system. The setup of the new production environment has been operated successfully, and new functionalities aiming at the optimization of internal processing are being added continuously.

In order to deepen their knowledge in the area of insurance, selected employees and managers went beyond their statutory obligations and passed tests (Insurance Distribution Directive) designed namely for positions dealing with insurance distribution.

Komerční pojišťovna approaches its business responsibly. Komerční pojišťovna participates in the Zelená firma (Green Company) project aimed at environmental protection. In research and development, Komerční pojišťovna focuses on developing new products, including the information systems in which the products are managed.

Internal control system and risk management

Corporate governance

In accordance with the requirements of Directive 2009/138/EC of the European Parliament and of the Council on the taking-up and pursuit of the business of Insurance and Reinsurance (Solvency II), KP has implemented four key functions: actuary function, compliance function, risk management function, and internal audit function. These key functions are supported by a set of committees, which form a part of the risk management system, as well as of the internal control system. The key functions cooperate closely, both at the local level in KP in the Czech Republic and at the group level. The group key functions provide local key functions with methodical instructions, tools, and procedures.

KP also complies with the legal framework regarding personal data protection in the European area (GDPR) with the aim to protect the rights of EU citizens against unauthorized processing of their data, including personal data. To ensure full recognition of rights of the data subjects, KP created a position of Data Protection Correspondent, who cooperates with Data Protection Officer of KB Group.

From 2022 on, the position of data protection officer will be assigned to an employee of Komerční pojišťovna.

A set of internal standards of the company, which clearly and precisely defines the responsibilities of individual employees, ensures compliance with the principle of avoiding conflicts of interests and enhances the effectiveness of the internal control system and of the risk management system.

Risk management system

The KP risk management system consists of three types of components, specifically the organisational framework, technical means, and human resources.

The organisational components include organisational structure, which ensures the independence of risk management functions on operational functions and has a direct access to the Company's Board of Directors. This allows the risk management function to implement strategies, policies, and tools for risk management.

The technical means of the risk management system comprise tools for the identification, analysis, and assessment of existing or potential risks, and tools for their monitoring, mitigation, and reporting. Among the main tools used to assess risks, there is the risk map, MyRCSA group tool, a model to calculate SCR, and other actuary models.

Human resources play a key role in the entire risk management system. They include any and all interactions between KP employees, three lines of defence, as well as all stakeholders, such as KP shareholders, suppliers and business partners, and state authorities. In association with the human resources component, values of KP are important, as they build on open communication, team spirit, social responsibility, professionalism, knowledge, and skills.

There are four building blocks to KP risk management system:

- Risk identification
- Risk analysis and assessment
- Risk management and monitoring
- Reporting

Risk management uses risk management tools for these four processes, and moreover, it is closely connected to the internal control system. The systems of risk management and internal controls support each other mutually.

The principles of internal control system are the basis for risk identification, assessment, monitoring, and management, as well as for their reporting.

The relationship between the system of internal control environment and the risk management system is secured by the actual organisation of these systems.

This organisation allows for permanent management of main risks, which might have impact on the solvency of the company and subsequently on SG Group.

The risk management system processes provide an overview of the main risks for KP, and they also provide the supporting materials allowing for informed decision-making of KP's Board of Directors to ensure that KP risk exposure stays within the required range. The risk management system processes have been set up in a way that allows an early warning of the Board of Directors, which, if necessary, can take action to implement corrective measures or action plans in order to prevent or mitigate the materialisation of the specific risk.

The particular measures aiming at risk management and mitigation are managed on the basis of a framework established by risk management policies, risk management strategies, and the Company's risk appetite.

The primary responsibility for the functionality of the risk management system lies with KP's Board of Directors.

People in KP

In 2021, Komerční pojišťovna once again had to face the situation associated with the impact of Covid-19 pandemics and adaptation to adopted anti-epidemic measures. It was a priority for the management and the human resources division to ensure operational continuity while protecting employees' health and safety. Preventative measures were adopted at the company level, such as regular work from home, employee testing, vaccination support in the form of one day of paid leave extra, application of rotating teams, and setting up anti-epidemic standards.

Komerční pojišťovna has set up the so-called hybrid style of work – i.e., a combination of regular work from home and from the office; this model has been set up in time and without greater operational limitations.

The project of moving to the headquarters of KB and of setting up the so-called smart office was one of the key goals for 2021. The project of moving included, apart from the aspect of physical relocation, also the implementation of smart office – that is the concept of shared working places and regular work from home while increasing the on-line form of cooperation. This change was supported by regular communication on project milestones and information section on the intranet. In November 2021, the Prague office was moved successfully, and now, it already works in the mode of shared places within the framework of a smart office.

The HR department mostly concentrated on intensive recruitment, support of the so-called internal mobility, i.e., the transfer of internal employees to new positions and their retention, and the growth of on-line solutions in HR processes. A change in the system of labour-medical check-ups was implemented, with the

automatic invitation to the check up being generated by the HR system. In 2021, KP once again allocated budget for education allowing for the support of professional growth, development of soft skills, as well as one-to-one language lessons. We have newly supported education in the form of on-line education activities thanks to subscribed user licences. The HR team has also focused on internal communication tools, regularly reporting on the situation regarding Covid-19 measures, HR cycle processes, news and change initiatives. Due to regular work from home and set anti-epidemic measures, the company management continued to use the on-line broadcast format as one of the communication channels for employees.

Recruitment of new employees represented one of KP's top priorities in 2021. The labour market has gone through significant enlivening, despite the continuing pandemic. Companies demanded new employees more frequently, while the willingness of applicants to actively enter the labour market and search for new positions is still lower than before the pandemic. The speed of hiring process and attractiveness of work offer became one of the parameters of successful recruitment. The HR team set up distance/hybrid form of hiring, while at the same time it continued to strive for effective communication with job applicants. In December 2021, innovated career site was introduced within the framework of launching a new website. In 2021, KP maintained a strong portfolio of suppliers in the field of recruitment services; and this fact also contributed to the ability to close most hirings successfully.

As in previous years, Komerční pojišťovna utilised intensively the synergies with Komerční banka, SOGECAP and Société Générale. Well-established cooperation within the Group reflected positively, e.g., in staff recruitment and mobility between Komerční banka and Komerční pojišťovna, in the participation of selected KP employees in development programs of SOGECAP Group, the setup of HR processes, the setup of shared portfolio of selected education activities, or especially in effective cooperation in payroll outsourcing.

On the long-term basis, KP has ranked among stable employers, offering its employees a broad portfolio of benefits that promote work-life balance (such as five days of sick leave, extra paternity leave, flexible working hours, the option of regular home office). Besides the above-mentioned benefits, KP offers risk life insurance, contribution to pension additional insurance, life insurance, cafeteria, electronic meal tickets. KP managed to maintain this attractive offer of benefits even throughout the very difficult year 2021.

Subsequent events

As at the date of the preparation of the financial statements, the Company management is unaware of any events that would require adjustment of the Company's financial statements.

War in Ukraine

The Company's management considered the potential effects of the war in Ukraine on its activities and business and concluded that they did not have a material effect on the Company's results in 2021 or on subsequent events after the balance sheet date.

The company does not hold any investments in Russia. In regards of the new sanction measures, the company monitors the insurance portfolio and its suppliers and intermediaries on a daily basis.

Comments on the Financial Results

Comparison of the year-on-year trend in gross written premiums – life insurance (thousands CZK)

2020	6,935,488
2021	6,680,806

- 3.7%

Comparison of the year-on-year trend in gross written premiums – non-life insurance (thousands CZK)

2020	564,937
2021	662,456

+ 17.3%

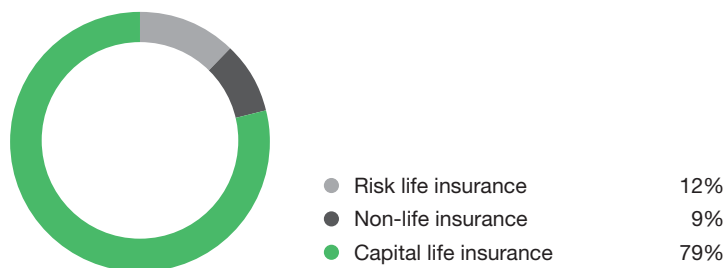

Profit

According to Czech national standards, the profit of Komerční pojišťovna amounted to 654 million CZK for the year 2021. According to IFRS international accounting standards used for the purposes of consolidation with KB, the profit amounted to 454 million CZK (non-audited).

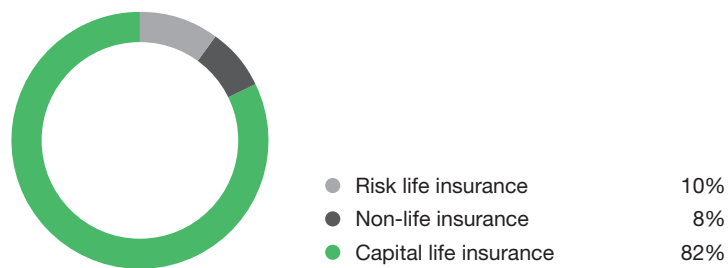

Gross written premiums

The volume of gross written premiums for 2021 amounted to 7,343 million CZK. Gross written premiums in life insurance amounted to 6,681 million CZK in 2021, which represents an interannual decrease by 3.7% due to the lower volume of capital life insurance. In the field of non-life insurance, Komerční pojišťovna generated written premiums in the amount of 663 million CZK. As opposed to 2020, there was an increase of 17.3% in written premiums in non-life insurance, especially thanks to premiums for property insurance.

The structure of gross written premiums in 2021 (%)

The structure of gross written premiums in 2020 (%)

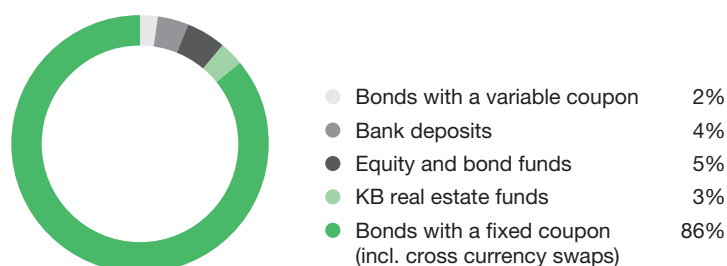

The structure of gross written premiums

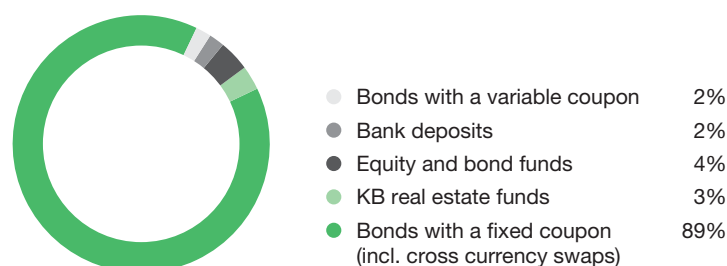

The structure of gross written premiums changed slightly in 2021, when the written premiums in capital life insurance decreased interannually (by 6%). There was an interannual increase (by 17%) in non-life insurance. Risk life insurance increased interannually as well (by 12%), which caused a greater share of risk life insurance in the overall gross written premiums.

A majority of the portfolio still consists in products of capital life insurance sold by Komerční banka, especially products with guaranteed appreciation. Further funds in the family of guaranteed funds were introduced throughout the year 2021 – Protective 11, Protective 12, Protective 13 Funds.

The structure of portfolio of Komerční pojišťovna as of 31 Dec 2020 (%)

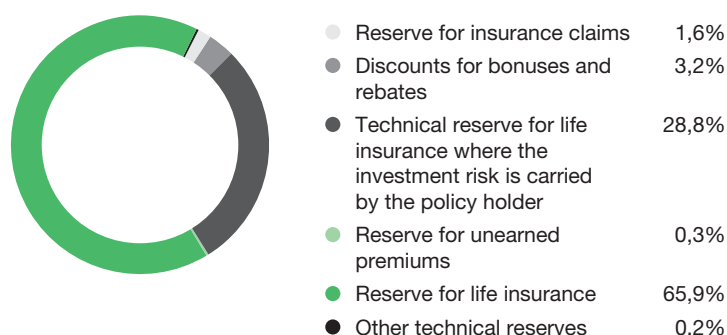

Portfolio structure

The structure of the investment portfolio has remained nearly the same as in previous years. Komerční pojišťovna continues to focus mainly on conservative titles. Bonds with a fixed coupon (including cross currency swaps) account for 86% of the portfolio, therefore guaranteeing clients strong return on their investments.

Government bonds of the Czech Republic and bonds issued by EU-based banks and corporations form a significant part of the portfolio. Further on, the portfolio is made up of deposits, stock and bond funds, and bonds with a variable coupon, only represented marginally.

The structure of technical reserves as of 31 Dec 2021 (%)

The structure of technical reserves as of 31 Dec 2020 (%)

Technical reserves

The volume of technical reserves decreased by 1.6% compared to 2020, and it amounted to 50,247 million CZK as of 31 Dec 2021.

Shareholders' equity

As of 31 Dec 2021, shareholders' equity amounted to 1,298 million CZK; it represents a decrease by 60% as compared to the year 2020, which has been influenced mainly by negative valuation differences in securities associated with significant increase of interest rates in 2021.

Komerční pojišťovna did not acquire any treasury shares during the year 2021.

Total balance sheet sum amounted to 51,964 million CZK as of 31 Dec 2021, which is 3.5% less interannually.

| Statutory Bodies

Komerční pojišťovna, a.s.

Shareholders' Decisions at General Meetings

In terms of Section 421, Subsection 2 of Act No. 90/2012 Sb. on Business corporations and cooperatives (Business Corporations Act), the following decisions of the General Meeting were made:

The General Meeting of the Company was held on 26 April 2021 as follows:

- It discussed the presented financial statement and the proposal of the Board of Directors regarding profit distribution for the year 2020;
- It reviewed the report of the Company's Supervisory Board on the results of its inspection activity, and it reviewed the report of the Board of Directors on relationships;
- It approved the final financial statement of the company for the year 2020;
- It decided on the distribution of profit for the year 2020 as follows: no dividend will be paid from profit after taxation amounting to 392,693,278.99 CZK, and the transfer to the non-distributed profit account will amount to 392,693,278.99 CZK;
- It commissioned Ernst & Young Audit, s.r.o., Na Florenci 2116/15, 110 00 Prague 1 – Nové Město to carry out a company audit for the accounting period 2021.

Further on, the General Meeting held in 2021:

- Approved the distribution of profit and other resources on 2 July 2021 in such a way that the overall sum of paid out dividend will amount to 392,688,000 CZK.
- On October 18, 2021, it approved an amendment to the company's articles of association. The Articles of Association were brought into line with the amendment to Act No. 90/2012 Coll., On Business Companies and Cooperatives, as amended (hereinafter referred to as the "ZOK"), which was implemented by Act No. 33/2020 Coll. and came into force on 1.1.2021

| Report of the Supervisory Board

Throughout 2021, the Supervisory Board carried out the tasks stipulated by law and by the Articles of Association. It performed its supervision over the activities of the insurance company and submitted its proposals to the Board of Directors.

Having reviewed the Company's financial statements for the year ended 31 December 2021, and on the basis of the external auditor's report on these financial statements, the Supervisory Board acknowledges that accounting records were maintained in a transparent manner, in compliance with the generally binding regulations governing the bookkeeping of insurance companies, and in compliance with the Company's Articles of Association, and that the financial statements provide a true and fair view of the Company's financial position in all material respects.

The statutory external auditor performed an audit of the Company's financial statements for the year ended 31 December 2021; the audit states that the financial statements give a true and fair view, in all material respects, of the assets, liabilities, equity and financial position of the Company as at 31 December 2021, as well as the result of its operations for 2021 in accordance with the relevant regulations of the Czech Republic.

The Supervisory Board recommends that the General Meeting approve the financial statements for 2021, as submitted by the Board of Directors.

The Supervisory Board reviewed the Related Party Report for 2021 prepared by the Company pursuant to the provisions of Section 82 et seq. of the Business Corporations Act, and stated, based on the presented documents, that Komerční pojišťovna, a.s. did not suffer any damage in the accounting period from 1 January 2021 to 31 December 2021.

Prague, 22 April 2022

On behalf of the Supervisory Board Komerční pojišťovna, a.s.

Philippe Perret
Chairman of the Supervisory Board

| Management affidavit

Komerční pojišťovna, a.s. hereby declares that all information and data contained in this Annual Report are accurate and complete. Komerční pojišťovna, a.s. hereby further declares that no subsequent events occurred prior to the date of processing this Annual Report that would have a material negative impact on the Company's financial position.

In Prague, date: 22 April 2022

Signed on behalf of the Board of Directors:

Gaël Loaec
Chairman of the Board of Directors and CEO

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Komerční pojišťovna, a.s.:

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Komerční pojišťovna, a.s. (hereinafter also the "Company") prepared in accordance with accounting principles generally accepted in the Czech Republic, which comprise the balance sheet as at 31 December 2021, and the profit and loss statement of and statement of changes in equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information. For details of the Company, see Note 1 to the financial statements.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Komerční pojišťovna, a.s. as at 31 December 2021, and of its financial performance for the year then ended in accordance with accounting principles generally accepted in the Czech Republic.

Basis for Opinion

We conducted our audit in accordance with the Act on Auditors, Regulation (EU) No. 537/2014 of the European Parliament and the Council, and Auditing Standards of the Chamber of Auditors of the Czech Republic, which are International Standards on Auditing (ISAs), as amended by the related application clauses. Our responsibilities under this law and regulation are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Act on Auditors and the Code of Ethics adopted by the Chamber of Auditors of the Czech Republic and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

A member firm of Ernst & Young Global Limited
Ernst & Young Audit, s.r.o. with its registered office at Na Florenci 2116/15, 110 00 Prague 1 - Nove Mesto,
has been incorporated in the Commercial Register administered by the Municipal Court in Prague,
Section C, entry no. 88504, under identification No. 26704153.

Fair value of investments

The Company's investments portfolio, disclosed in the Note 4.2 Investments to the financial statements, represents a major part of the Company's total assets. These investments are carried at fair value (and in nominal value in case of term deposits) as disclosed in the Note 2.3 Investments and Note 4.2 Investments. The Company assesses the market activity in order to determine the appropriate valuation method for investments in its investment portfolio. Fair value of liquid investments should be based on actual market observable inputs, reflecting real market activity, such as actual trade prices. Fair values of illiquid or non-quotable investments should be based on valuation models that use inputs and assumptions that are either observable or unobservable. The determination of the fair value of investments involves higher degree of management judgment, focus and estimate applied in the valuation models, or in valuation methods including consideration of impact of COVID-19 and IBOR reform. Due to those facts this area requires significant audit effort and was assessed it as a key matter for our audit.

We assessed the governance and process over the valuation of investments. We tested the design of internal controls over the process of valuation of investments and the operating effectiveness of internal controls over the process of valuation of bonds and shares, including selection of the valuation method.

With assistance of valuation specialists, we reviewed the methodology applied by the Company to assess the market activity of investments in its portfolio.

For a selected sample of instruments across the whole portfolio of investments we tested whether illiquid or non-quoted instruments were correctly identified and valuation method correctly selected.

For a sample of liquid and quoted financial instruments we compared their value to the market price as of 31 December 2021. With the assistance of valuation specialists, we evaluated the models, inputs and assumptions used by the Company in determining fair values of illiquid or non-quoted instruments, including also investments in real estate funds. For a sample of these instruments, we performed independent revaluation of fair value. In case of non-observable inputs, we used valuation specialists in the assessment of their reasonableness, such as review and analysis of the projected cash flows, corroboration of the assumptions used, or review of valuation reports determining fair value of underlying properties in real estate funds.

With assistance of valuation specialists, we reviewed the methodology applied by the Company to assess impact of COVID-19 pandemic and IBOR reform to models, inputs and assumptions used for fair value assessment of its portfolio.

We also assessed the adequacy of the Company's disclosures regarding investments in the Note 2.3 Investments and Note 4.2 Investments of the financial statements in accordance with accounting principles generally accepted in the Czech Republic.

Estimates used in calculation of technical reserves and Liability Adequacy Test

The Company's technical reserves, disclosed in the Note 2.8 Technical Reserves, and the Note 4.8 Technical Reserves of the financial statements, represent a significant part of the Company's total liabilities. Technical reserves are valued in accordance with accounting principles generally accepted in the Czech Republic and in accordance with Solvency II for corporate income tax calculation purposes. Consistent with the insurance industry, the Company uses actuarial models to support the valuation of the insurance contract liabilities, as disclosed in the Note 2.8. Technical Reserves.

We used actuarial specialists to assist us in performing our audit procedures. Our audit focused on the models considered more complex or requiring significant judgement in the setting of assumptions such as mortality, morbidity, claims development, variables related to profit sharing and the model adjustments related to profit-sharing principles.

We assessed the governance and process over the calculation of technical reserves. We tested the design and the operating effectiveness of internal controls over the actuarial process including

Economic and actuarial assumptions, such as investment return, costs, interest rates, mortality, morbidity, claims settlement expectations and patterns and customer behavior including COVID-19 pandemic are key inputs used to estimate these long-term liabilities, as disclosed in Note 3 Risk Management.

This area involves significant management estimate and judgement over uncertain future outcomes, including primarily the timing and ultimate full settlement of long-term policyholder liabilities, which requires significant audit effort. As a consequence we considered it a key audit matter for our audit.

governance and approval process for setting of economic and actuarial assumptions.

We also assessed the process over the Company's actuarial analyses including estimated versus actual results and experience studies. For the assumption setting process, we assessed the experience analyses performed by the Company. Our assessments also included, as necessary, review of specified economic and actuarial assumptions considering management's rationale for the actuarial judgments applied along with comparison to applicable industry experiences and assessment of impact of COVID-19 pandemic.

We evaluated actuarial judgements used in the models, which may vary depending on the product and the specifications of the product, and also the compliance of the models with the accounting principles generally accepted in the Czech Republic and Solvency II. Furthermore, we performed audit procedures on sample basis to determine the models were calculating the technical reserves accurately and completely.

Specifically, in line with Solvency II we performed audit procedures to test mathematical correctness and completeness of calculation in relation to best estimate of technical provision and risk margin. When testing best estimate we primarily focused on part of portfolio with material differences in value of technical provision according to the accounting principles generally accepted in the Czech Republic and Solvency II framework. These are liabilities from traditional life insurance and risk-life insurance. We also assessed the appropriateness of actuarial assumptions used in the models specifically used for the Solvency II framework.

We verified the validity of management's liability adequacy testing which is a test performed to check that the reserves are adequate as compared to the expected future contractual obligations.

Our work on the liability adequacy tests included review of the projected cash flows and of the assumptions adopted in the context of both the Company and industry experience and specific product features.

We also assessed the adequacy of the disclosures regarding technical reserves in the Note 2.8 Technical Reserves, Note 4.7 Technical Reserves and Note 3. Risk of the financial statements to determine they were in accordance with accounting principles generally accepted in the Czech Republic.

Impact of increase in market interest rates

As disclosed in the Note 6 Other events to the financial statements, the increase of market interest rates had a significant impact on the Company.

We assessed the prospective financial information prepared by the management of the Company over the next 10 years. With assistance of actuarial

Specifically, as disclosed in the Note 4.6 Equity, the fair value of investments significantly decreased and also as disclosed in the Note 4.14 Taxes, a significant deferred tax asset was recognized. The assessment of impact of the increase in market interest rate involved significant judgment mainly in relation to the recoverability of the deferred tax asset and business development of the Company in future years, including assessment of compliance with laws and regulations. This area required significant audit effort, including involvement of actuarial specialists and was assessed as a key matter for our audit.

specialists, we reviewed the significant assumptions used in the projection, including projected macroeconomic parameters, projected business development and estimates used in calculation of technical provisions (both accounting and Solvency II). We reconciled the key parameters and estimates in the projection to the business plan approved by the supervisory board. We also assessed the reasonableness of the scenarios applied to prospective financial information, which included (i) a rise in interest rates above the current forecast, (ii) the ORSA stress scenario of the business plan, (iii) failure to meet the year-on-year growth in the risk life and non-life business and (iv) forced asset sales. As a part of our audit, we also assessed the impact of current and expected future impact of increase in market interest rates on the recoverability of the deferred tax asset, compliance with laws and regulations and assessment of going concern assumption of the Company.

We also assessed the adequacy of the Company's disclosures the impact of increase of market interest rates in the Note 6 Other events, note 4.6 Equity, Note 4.14 Taxes and Note 2.24 Going concern of the financial statements in accordance with accounting principles generally accepted in the Czech Republic.

Other Information

In compliance with Section 2(b) of the Act on Auditors, the other information comprises the information included in the Annual Report other than the financial statements and auditor's report thereon. The Board of Directors is responsible for the other information.

Our opinion on the financial statements does not cover the other information. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. In addition, we assess whether the other information has been prepared, in all material respects, in accordance with applicable law or regulation, in particular, whether the other information complies with law or regulation in terms of formal requirements and procedure for preparing the other information in the context of materiality, i.e. whether any non-compliance with these requirements could influence judgments made on the basis of the other information.

Based on the procedures performed, to the extent we are able to assess it, we report that:

- The other information describing the facts that are also presented in the financial statements is, in all material respects, consistent with the financial statements; and
- The other information is prepared in compliance with applicable law or regulation.

In addition, our responsibility is to report, based on the knowledge and understanding of the Company obtained in the audit, on whether the other information contains any material misstatement. Based on the procedures we have performed on the other information obtained, we have not identified any material misstatement.

Responsibilities of the Company's Board of Directors and Supervisory Board for the Financial Statements

The Board of Directors is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the Czech Republic and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Supervisory Board is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with above regulations will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the above law or regulation, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors, the Supervisory Board and the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Board of Directors, the Supervisory Board and the Audit Committee, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In compliance with Article 10(2) of Regulation (EU) No. 537/2014 of the European Parliament and the Council, we provide the following information in our independent auditor's report, which is required in addition to the requirements of International Standards on Auditing:

Appointment of Auditor and Period of Engagement

We were appointed as the auditors of the Company by the General Meeting of Shareholders on 26 April 2021 and our uninterrupted engagement has lasted for 7 years.

Consistence with Additional Report to Audit Committee

We confirm that our audit opinion on the financial statements expressed herein is consistent with the additional report to the Audit Committee of the Company, which we issued on 22 April 2022 in accordance with Article 11 of Regulation (EU) No. 537/2014 of the European Parliament and the Council.

Provision of Non-audit Services

We declare that no prohibited non-audit services referred to in Article 5(1) of Regulation (EU) No. 537/2014 of the European Parliament and the Council were provided by us to the Company. In addition, there are no other non-audit services which were provided by us to the Company and its controlled undertakings, and which have not been disclosed in the financial statements.

Statutory auditor responsible for the engagement

Lenka Bízová is the statutory auditor responsible for the audit of the financial statements of the Company as at 31 December 2021, based on which this independent auditor's report has been prepared.

	Position	Name
Audit committee		
	Chairman	Thomas Jarsaillon
	Vice chairman	Laurent Dubrovine
	Member	Jiří Příbyl

1.3. Equity Holdings in Other Businesses

The Company held no significant equity investments in other businesses as of 31 December 2021 or as of 31 December 2020.

1.4. Changes and additions to the Company registration in the Commercial Register

In 2021, there were following changes in the Commercial Register.

Mrs. Nathalie Dos Santos Gil's membership in Board of Directors was terminated in 2021 which was entered in Commercial register with termination date as of 31 May 2021.

Mr. Jan Juchelka's membership in Supervisory Board was terminated in 2021 which was entered in Commercial Register with termination date as of 31 December 2021.

On 27 of December 2021 was entered change of registered Office of the Company from address Karolinská 650/1, 186 00, Prague 8 to new one náměstí Junkových 2772/1, Stodůlky, 155 00, Prague 5.

Since 1st of April 2022 membership in Supervisory Board and in Audit committee for Mr. Laurent Dunet has been established alongside with termination of membership in these two institutions for Mr. Laurent Dubrovine as of date 31 March 2022.

1.5. Legal Relations

As of the balance sheet date, all of the Company's legal relations comply with the Insurance Act, including the related implementation guidance notes. The Company operates both in life and non-life insurance segments.

1.6. Movements in Share Capital

The Company did not report any changes in the share capital in the year ended 31 December 2021 or in the year ended 31 December 2020.

1.7. Preparation of financial statements in English

The financial statements have been prepared in Czech language and in English. In all matters of interpretation of information, views or opinions, the Czech version of the financial statements takes precedence over the English version.

2. ACCOUNTING POLICIES

2.1. Basis of Accounting

In maintaining its accounting books and records and in preparing the financial statements, the Company complied with Accounting Act No. 563/1991 Coll., as amended, Decree No. 502/2002, which provides implementation guidance on certain provisions of the Accounting Act No. 563/1991 Coll., as amended, for reporting entities that are insurance companies (hereinafter “Decree 502”), and with Czech Accounting Standards for reporting entities that maintain their accounts under Decree 502.

The Company’s accounting books and records are maintained in such a manner so as to ensure that the financial statements prepared on the basis of the accounting books and records give a true and fair view of assets, liabilities, equity and the financial position of the Company while complying with the prudence and going concern principles. See section 6. Other events.

The financial statements are prepared on the accruals basis of accounting whereby the effects of transactions and other events are recognised when they occur and are reported in the financial statements of the periods to which they relate. Assets that are not revalued at fair value and suffered impairment are stated at net recoverable amount.

The reporting currency used in the financial statements is the Czech koruna (“CZK”) with accuracy to CZK thousand, unless indicated otherwise. The financial statements were prepared as of and for the year ended 31 December 2021.

2.2. Tangible and Intangible Fixed Assets

Tangible fixed assets include assets with an acquisition cost greater than CZK 40 thousand on an individual basis and an estimated useful life exceeding one year. Tangible assets costing less than CZK 40 thousand are expensed in the year of acquisition.

Intangible fixed assets include start-up costs greater than CZK 20 thousand and other intangible assets with an acquisition cost greater than CZK 60 thousand on an individual basis and an estimated useful life exceeding one year. Intangible assets costing less than CZK 60 thousand are expensed in the year of acquisition.

The Company creates provisions against tangible and intangible fixed assets if the inventory count highlights that their fair value is lower than their carrying value and the impairment is temporary. No provisions were recognised against fixed assets in the year ended 31 December 2021 and in the year ended 31 December 2020.

Depreciation of fixed assets is recorded on a straight line basis for accounting purposes. Accounting depreciation is based on the expected useful life of the tangible and intangible assets. The depreciation period is indicated below:

Category of assets	Depreciation period in years
Cars	4
Furniture and fixtures	7 – 10
Software	1,5 – 4
AIA and DWH Software	5
Start-up costs	5

As a result of binding statutory requirements regarding the presentation of financial statements of insurance companies, the components of fixed assets shown above are classified on the face of the balance sheet as of 31st December 2021 and as of 31st December 2020 as follows:

- Intangible fixed assets, including their acquisition, are presented in line 2;
- Tangible fixed assets (both depreciable and non-depreciable), including their acquisition, are presented in line 30.

The Company recognised tax depreciation charges for tangible and intangible assets in 2021 and 2020.

2.3. Investments

Deposits with financial institutions

Deposits placed with financial institutions are measured at their nominal value upon acquisition. Deposits denominated in foreign currencies are retranslated into Czech crowns at the ruling exchange rate of the Czech National Bank and any foreign exchange rate difference is included in the valuation. Revaluation is recognised through the profit and loss account

Debt securities

Debt securities at a settlement date are valued at cost upon acquisition. Acquisition cost is the amount for which a debt security has been acquired. It includes a proportionate part of any accrued interest and expenses directly associated with the acquisition. Premium or discount is recorded to income or expense over the remaining maturity of the debt securities using the effective interest rate method. Accrued interest income on securities is reflected directly in the relevant account of these securities. Debt securities denominated in foreign currencies are retranslated into Czech crowns at the ruling exchange rate of the Czech National Bank.

Since 1st January 2018 all debt securities are classified as available for sale securities and at balance sheet date they are revaluated at fair value. Any revaluation differences on a financial asset available-for-sale are recognized in equity, except for impairment adjustments which are recognized in the income statement.

Fair value means the market value derived from quoted market bid prices declared on the domestic or foreign stock market or on any other public (organised) market published by Bloomberg agency. The Company applies the most recent published market price as at the date of the financial statements (balance sheet date). If there is no available price or if this price does not sufficiently represent fair value, fair value is determined based on a qualified estimate. The basic approach for determining a price of the bond through the valuation model is a method of discounting cash flows with using a curve which is taking into account a current level of basic interest rates and a credit quality of the bond's issuer (or issue).

When securities are derecognized, the revaluation differences (gains or losses previously recognized in equity) are recognized in the income statement (as income from the sale of investments/expenses from investments within the technical account – life insurance, or as income from the other investments/expenses from investments within the non-technical account).

Other investment

Derivatives

Derivatives are measured at their fair value. Fair value of the financial derivatives is being measured as a current value of the expected cash flows arising from these derivatives. Derivatives are presented in Balance Sheet in Other investments.

Hedging derivatives

As part of the implemented investment strategy, Company hedges cash flows from foreign currency debt securities using cross-currency swaps. The purpose of hedging derivatives is to eliminate the currency risk posed by the holding of foreign-currency debt securities. Pursuant to the current legislation, Company classifies these derivatives as hedging derivatives and the gains or losses from the revaluation of swaps, effectively used for hedged risk, at their fair value are recognised in equity accounts. Revaluation of foreign-currency debt securities arising from changes in exchange rate (CZK/EUR, CZK/USD) is also charged to equity. Cash flows in the foreign currency from the hedged item (bonds) are settled by the cash flows in foreign currency from the hedging instrument. All cash flows from the hedging instrument (cross currency swap) are known in advance and thus the hedged risk is eliminated.

The difference between nominal value and purchase price of the debt securities (premium or discount and purchase accrued interest income) in case that the foreign currency part of the cross currency swap was concluded only as a nominal value of a bond, is recognised in equity as an up-front fee. At the time of the first payment of the coupon, the purchased accrued interest is derecognised against balance sheet accounts. During the holding of the security, premium and discount are amortised through the profit and loss accounts.

If any of the derivative transactions does not fulfil the requirements for hedge accounting derivative is designated upon initial recognition as at fair value through profit or loss and changes in its fair value are recognized as gain/loss from revaluation to income statement.

Within a reform of EUR and USD referential interest rates in 2020, the current referential interest rates EONIA (EUR) and LIBOR (USD) were replaced with alternative benchmarks: ESTER/€STER (Euro Short Term Rate) and SFOR (Secured Overnight Financing Rate).

Based on this methodological changes, the Company has decided to stop use former referential interest rates based on the IBOR/swap rates for the revaluation of its derivatives (currency swaps) and has started to use the alternative benchmark curves derived from ESTER/€STER (alternative risk – free rate) rates for EUR-denominated cash flow, resp. from SFOR rates for dollar-denominated cash flow. Using curves derived from ESTER / €STER, resp. SFOR is now a common market practice in financial markets.

Test of effectivity of hedging

The Company performs regularly tests of effectivity of hedging assets using both prospective and retrospective method.

The tests are performed upon acquisition of the hedging asset and then regularly each month. The effectivity test itself includes both an efficiency test that must be 100% and an inefficiency test that must be 0%.

The basis of testing is therefore the revaluation of both the hedged assets and the hedging instrument by the same interest rate curve corresponding to the currency of the hedged asset and determination of the fair value of the hedged asset and fair value of hedging instrument without any spread resulting from the asset's credit quality, liquidity or other specific factors.

Shares, other variable yield securities and other interests

Shares, mutual funds and real estate fund investments are valued upon acquisition cost at initial recognition. Acquisition cost is the amount for which shares, mutual funds and real estate fund investments have been acquired. It includes expenses directly associated with the acquisition.

These investments are recognized at fair value through profit and loss. These assets were primarily purchased for the purpose of gain from short-term price deviations, portfolio diversification and after that for the purpose of higher income from the portfolio covering life-insurance reserves and the possibility to credit the gain to clients.

As of the balance sheet date shares, mutual funds and real estate fund investments are revaluated to the fair value. Fair value means the market value derived from quoted market bid prices declared on the domestic or foreign stock market or on any other public (organised) market. The company applies the most recent published market prices at the date of the financial statements (balance sheet date) or as close as possible to this day. If there is no available price or if it does not sufficiently represent fair value, fair value is determined based on a qualified estimate. Investments into the real estate fund are valued by expert as market price is not available. The valuation is based on the net asset value of single real estate funds that are set by their founder. This value is set also based on market value of underlying asset (properties) determined by external expert.

The value of shares, mutual funds and real estate fund investments denominated in foreign currencies is determined in relevant foreign currency per unit and it is retranslated into Czech crowns at the ruling exchange rate of the Czech National Bank and any foreign exchange rate difference is included in the valuation.

Dividends are recognized at their payment. Depending on its nature, dividend income is recognized in the income statement either as income from investments with the technical account – life insurance, or as income from investments with the non-technical account.

Any gain or loss arising from a change in fair value is recognized in the income statement in the line Unrealised gains or Unrealised losses on investments in the technical result – life insurance. Shares, mutual funds and real estate fund investments are recognized in Balance sheet in the line Shares and other variable yield securities, other participating interest, line 13.

Investments for the benefit of life insurance where the policyholder bears the investment risk

Investments for the benefit of life insurance, where the policyholders bears the investment risk, is recognised separately from other financial placement components.

As at the balance sheet date the investments of life insurance where the investment risk is carried by the policyholder is revaluated to the fair value. Fair value means current value of unit certificates of collective-investment funds announced as of the date of fair value settlement. All changes of fair values are recognised through the profit and loss accounts.

2.4. Debtors (Receivables)

Receivables are stated at nominal value.

Specific coefficients for provisioning were assigned to individual groups of receivables based on the expected return from these receivables.

In determining debt provisioning levels, the risk (the number of past due days) attached to all amounts due from a specific debtor is considered to be equal to the risk (the number of past due days) of the oldest of these receivables.

Operating prepayments

Bonus prepayments related to collective insurance contracts are being paid in line with concluded contracts and in the agreed frequency (usually once a year) are being settled with real costs.

2.5. Permanent or Long-Term Impairment of Assets

At the balance sheet date, the Company assesses the existence of any objective indications of the potential permanent decrease of value of financial assets.

An objective indications of the decrease of value of assets is based of one or more events that occurred in the period following the purchase of assets, while these loss events have an impact to future cash flows connected with particular financial assets.

In this case, the loss recognized in equity is transferred without undue delay to the profit and loss account, at the expense of losses from financial operations.

If, following the recognition of impairment in the profit and loss account there will be observable increase in the fair value of debt securities, this increase is going to be recognized in profit and loss account up to the value of impairment that was recognized in the profit and loss account.

2.6. Cash on accounts with financial institutions and cash on hand (Cash and Cash Equivalents)

Cash comprises cash on hand and current bank accounts designated to secure the Company's operations. Term deposits are reported as a component of Investments, chapter 2.3.

Cash equivalents comprise vouchers and franking machine credit.

Cash and cash equivalents are stated at nominal value.

2.7. Equity

Share capital of the Company is stated in the amount recorded in the Commercial Register of the Municipal Court. Any increase or decrease of the share capital based on the decision of the Board of the Directors, which has not been registered at the date of the financial statements, is stated as a change of the share capital.

Other capital funds include revaluation of debt securities and derivatives (described in detail in chapter 2.3) and consists of the following items:

- Difference in valuation of securities include the revaluation of debt securities to fair value.
- Difference in valuation of derivatives include revaluation of cross currency swaps to fair value.
- Up-front fee corresponds to the amount of the difference between nominal value and the cost of a debt security when foreign part of cross currency swap was concluded only on the nominal value of the bond.
- Deferred tax is calculated on all temporary differences between tax and accounting values, i.e. in case of revaluation of investments through Other capital funds the value of revaluation is taken as the difference.

2.8. Subordinated liabilities

In 2020, the Company accepted subordinated debt. In the balance sheet, this item is reported in liabilities in section B. "Subordinated liabilities". The amount of subordinated debt and counterparties are stated in Note 4.7 Subordinated liabilities.

2.9. Technical Reserves

The Company records technical reserves pursuant to Insurance Act No. 563/1991 Coll., as amended and degree No. 502, as follows:

Life Insurance Reserve

The life insurance reserve is created as a sum of reserves calculated under individual life insurance policies and represents the sum of the Company's liabilities net of the value of future premiums. The technical reserve includes the allocated share of profit and the costs associated with insurance administration. The life insurance reserve for traditional life insurance products is calculated using the "Zillmer" method where negative values are substituted with zero.

Unearned Premium Reserve

The unearned premium reserve represents actual (or estimated as appropriate) written premiums that do not relate to the current reporting period and are calculated using a daily 'pro rata' method of the aggregate written premiums according to the number of days that relate to the current reporting period and to the following reporting periods.

The claim reserve for Outstanding Claims

Provision for outstanding claims, for both life and non-life insurance, consists of a reserve for insurance claims reported but not settled during the year ('RBNS') and a reserve for insurance claims incurred but not reported during the year ('IBNR').

The claim reserve also reflects the amount of the estimated claims handling costs associated with settling claims.

The RBNS is recognised as equal to the sum of reserves for anticipated insurance payments for individual reported, but unsettled claims according to estimated damage amounts arising from claims recorded as of the balance sheet date.

The IBNR is determined using actuarial methods based on an analysis of available information that includes, but is not limited to:

- Supporting evidence underlying the insurance portfolio split by classes of individual insurance activities;
- Historical series relating to individual classes of insurance activities that monitor the moment of claim origination and the moment of claim settlement (the Chain-Ladder method applied to quarterly data) – it is used typically for non-life insurance activities;
- The estimated aggregate claims ratio; and
- The estimated claims need for a determined period of time is usually used for life insurance activities.

While the Board of Directors considers the balance of the reserve for outstanding claims to be fairly presented on the basis of the information available at the balance sheet date, the ultimate balance of liabilities may differ as a result of subsequent information and events and can result in significant changes in the final amounts. Changes in the reserve balance are reflected in the financial statements for the period in which they occur. The adopted approaches and estimates are assessed on a regular basis.

Reserve for Bonuses and Discounts

The reserve for bonuses and discounts is recorded to cover costs of bonuses and discounts provided to policy holders under insurance policies.

In respect of life insurance, this reserve also reflects a portion of income from investments held for anticipated but not yet awarded profit shares.

In 2021, the Company released part of the provision in amount of CZK 211 million (CZK 211 million created in 2015). This amount has been used for the financing of client's profit share in 2021, and at the same time in 2021 the Company created a reserve for bonuses and discounts by CZK 411 million up to the final amount of CZK 1,598 million.

In 2020, the Company released part of the provision in amount of CZK 324 million (CZK 268 million created in 2013, CZK 51 million created in 2014 and CZK 5 million created in 2015), this amount has been used for the financing of client's profit share in 2020 and at the same time the Company created a reserve for bonuses and discounts by CZK 64 million up to the final amount of CZK 1,398 million.

The amount reflects the obligation of the Company to provide policy holders with relevant insurance claim payments and cannot be used for any other purpose. The Company undertakes to allocate the amount to individual policies by the relevant resolution of the Company adopted with the Company's full authority which complies with the provisions of insurance policies for profit shares in the following years but no later than within eight years from the recognition of this reserve, specifically to those persons who will be the policy holders of the particular products that stipulate the right for the profit share to the policy holder as of the last date of the calendar year in which the Company takes such decision. The Company confirmed this commitment by means of public pledge announced on its web sites on 18 December 2015.

If the Company does not take the above decision within eight years from the recognition of the reserve, it undertakes to allocate this amount (or its so far unallocated part, hereinafter "mandatory part of the provision" or "**PRA**") to policies (i.e. products that stipulate the right for the share in the profit for the policy holder) of individual policy holders who will be the policy holders on the last day of the 8th year from the recognition of the reserve. Each policy holder should receive an amount (hereinafter "**PAn**") calculated as an average balance of the reserve of life insurance of the relevant policy holder during the 8th calendar year from the recognition of this reserve for bonuses and discounts (hereinafter "**pRŽPn**") divided by the total average value of the reserve of life insurance of these eligible policy holders (hereinafter "**pRŽP**") and multiplied by the mandatory reserve (hereinafter "**PRA**") based on the following formula:

$$PAn = pR\check{z}Pn/pR\check{z}P * PRA$$

The above mentioned reserve for bonuses and rebates was recognised in addition to the profit shares that were allocated to individual policies and that became part of the reserve of life insurance upon the allocation of shares for 2021.

Other Technical reserves

The Company creates a reserve for obligations resulting from life insurance contracts. At the balance sheet date, the Company undertakes a test of the adequacy of life insurance technical reserves (the "liability adequacy test") designed to verify the sufficiency of the total sum of amounts of life insurance reserves. The basic testing method is the model of discounted financial cash flows.

The result of the liability adequacy test is the minimum value of liabilities to the policy holders calculated when using the best estimate of the presumptions of the future development of input parameters adjusted for an additional charge reflecting risk and uncertainty.

The reserves are insufficient when the minimum value of insurance liabilities is greater than the amount of life provisions decreased by the corresponding outstanding acquisition costs. If the result of the liability adequacy test shows insufficiency of technical reserves, the Company creates a reserve equivalent to this deficiency.

Technical provisions for Investment life insurance where the policyholder carries the investment risk

This reserve is held to cover obligations of the insurance company to the policy holders for the life insurance products where it is the policyholder who carries the investment risk on the basis of the insurance contract.

The reserve amount is determined as a sum of the liabilities to the policy holders in the amount of their shares of allocated premiums from individual contracts according to the principles specified in insurance contracts.

In compliance with Section 16 (9) of Decree no 502/2002 Coll. for part of liabilities from these contracts that arise from (a) covering the risk of death and (b) funds placed in guaranteed funds, the reserve is created according to Section 16 (5) of the Decree.

Provision (Provision for Other Risks and Losses)

The Company creates other reserves for risks that are not directly related to its insurance activities.

Specifically, the Company recorded a reserve for anticipated risks and losses associated with legal disputes and similar situations.

2.10. Creditors (Payables)

Payables are stated at nominal value.

Payables to the policyholders principally comprise insurance premium overpayments and prepayments as well as received payments temporary unmatched with the related receivables at the balance sheet date.

2.11. Temporary Assets and Liabilities

Temporary assets and liabilities principally comprise:

- Deferred expenses – primarily deferred acquisition costs of insurance policies and capitalized internal and external cost of selected projects.
- Within information technologies Company incurs expenditure on R & D, mainly related to development studies and implementation of individual projects;
- Accrued income – particularly accrued revenues from term deposits;
- Estimated receivables – primarily estimated funds to be collected from reinsurers (shares of insurance claims, commissions and profit shares) and an estimate for premiums not yet written in the operating systems; and
- Estimated payables – primarily estimated balances of anticipated premiums ceded to the reinsurers, unpaid commissions, fees and unbilled supplies.

2.12. Gross Written Premiums

Gross written premiums include all premiums amounts stated in insurance policies during the period, regardless of whether these amounts relate partly or wholly to the following accounting periods.

Income from written premiums is recognised on an accrual basis by recording a reserve for unearned premiums in accordance with accounting procedures for insurance companies (refer to Note 2.8.).

2.13. Costs of Insurance Claims

Costs of insurance claims are recorded as equal to the amounts awarded for the settlement of claims and also include external costs of the Company incurred in processing claims. Costs of insurance claims are reduced by claims of recourse or other similar claims of the Company. The cost is recognised in the current period when the level of a payable to a client is acknowledged.

The costs of insurance claims (specifically life insurance claims) include not only the claims incurred (non-life insurance, death or endowment in respect of life insurance) but also client payments from capital life insurance accounts and the lump-sum settlement when this insurance is cancelled.

In settling non-life insurance claims the Company cooperates with AXA ASSISTANCE CZ, s.r.o., Inter Partner Assistance, branch, Willis Towers Watson Consulting and Mondial Assistance in respect of organisational, economic and technical advice, including investigations into insured events, preparation of full documentation in support of examining and settling these insured events.

2.14. Acquisition Costs of Insurance Policies

Acquisition costs of insurance policies include all direct and indirect costs incurred in acquiring insurance policies. Acquisition costs of insurance policies principally comprise:

- Commission paid to insurance policy acquirers; and
- Payment for medical assessments.

Non-life insurance commissions are deferred in line with the proportion of the unearned premiums to premiums written or reflect the estimated period of validity of the policy to which the commission relates. Acquisition commission for product Property distributed by KB, MPSS and broker companies is deferred according to the period for which the broker is obliged to return part of the commission in case of contract cancellation.

Acquisition costs of traditional life insurance products are deferred in the form of Zillmer life insurance reserves.

Commissions on risk life insurance sold by brokerage companies and MPSS, the initial commissions are accrued over a period of 60 months in 2021 and 2020.

Commissions related to investment life insurance are not deferred.

2.15. Administrative Costs

Administrative costs consist of costs that are not directly involved in entering into insurance policies, such as consumption of material and fuel, travel expenses, rental expenses, advisory services, postal fees, other fees, wages and other social costs, or depreciation of assets.

If administrative costs are clearly identifiable, they are charged directly to the relevant technical life or non-life accounts during the year.

Other unallocated administrative costs are primarily posted to non-technical cost accounts and, at the year-end, they are re-allocated to life and non-life insurance technical accounts in a proportion that matches the allocation based on the ABC (Activity Based Costing) method, regulating the matching of costs to individual types of insurance. The proportion was 31% for non-life insurance and 69% for life insurance in 2021. In 2020 the proportion was 32% for non-life insurance and 68% for life insurance.

2.16. Costs of Investments and Income Recognition

Recognition of Costs and Income from Investments and their Allocation between Life and Non-life Insurance

The Company has split its portfolio of financial investments into the following four parts, since 2021:

- Portfolio of financial investments covering non-life insurance reserves;
- Portfolio of financial investments covering life insurance reserves;
- Portfolio of financial investments covering risk life insurance reserves; and
- Portfolio of financial investments covering funds of the Company's equity.

Till the end of the year 2020, portfolio was divided between three parts. Since 2021 was newly added Portfolio covering risk life insurance reserves.

Income from and costs of investments are primarily recorded on the life insurance technical accounts. At the year end, net income not related to life insurance is re-allocated to the non-technical accounts and the relevant amount of income is re-allocated from the non-technical accounts to the non-life insurance technical account.

The Company uses the proportion of the average balances of life and non-life insurance technical reserves and equity as a basis for reallocating expenses and income from investment.

Accounting Treatment for the Realisation of Investments

The Company's accounts for the realisation of investments on a gross basis and accordingly records separately all the revenues arising from realisation as equal to the selling value of the relevant investment instruments and the costs as equal to their carrying value.

2.17. Other Technical Costs and Income

Clearly identifiable costs and income are recorded directly on the life and non-life technical accounts during the year.

Costs that are not clearly identifiable are primarily recorded on the non-technical accounts and subsequently reallocated to the technical life or non-life accounts. As a basis for reallocating the costs and income, the Company uses separate coefficients for life and non-life insurance (refer to Note 2.14).

This treatment does not apply to taxes and fees, and other expenses not related to insurance and reinsurance.

2.18. Reinsurance

Under the terms of reinsurance arrangements, the reinsurer's share of premiums is calculated, invoiced and paid based on the premiums collected from reinsured policies. At the balance sheet date, the Company records an estimated payable in respect of the anticipated reinsurer's share of premiums not yet billed.

Under the terms of reinsurance arrangements, the reinsurer's share of claims is calculated and paid based on the actually settled insurance claims. The Company recognises estimated receivables in respect of the anticipated but not yet paid reinsurer's share of recorded insurance claims.

Under the terms of reinsurance arrangements, reinsurance commissions are calculated and paid based on the paid reinsurer's share of premiums reflecting loss experience.

The Company recognises its share of the reinsurer's profit when the entitlement to this profit share can be determined.

The reinsurer's share of reserves is determined pursuant to the reinsurer's share of collected premiums or insurance claims taking into account other relevant factors.

2.19. Income Taxation

The income tax for the relevant period consists of the due tax and the change in the deferred tax. The due tax consists of the tax calculated from the tax base using the tax rate valid in the current year and all additionally assessed taxes and refunds of the overpaid taxes of previous periods, as well as the reserve for the due tax, including the independent tax base (dividends received from abroad).

Taxation of provisions resulting from the amendment of Act No. 586/1992 Coll. On income taxes

On 1 January 2020, Act No. 364/2019 Coll. came into force, which amends Act No. 586/1992 Coll., On income taxes, as amended (the "Income Tax Act") and Act No. 593/1992 Coll., On provisions for determining the income tax base, as amended (the "Provisions Act").

The subject of the change is the adjustment of the income tax base by the difference between the change (creation / releasing) of technical provisions in the insurance pursuant to Act No. 277/2009 Coll., On Insurance, as amended (the "Insurance Act"), resp. Directive 2009/138 / EC of the European Parliament and of the Council on the approach to insurance and reinsurance business and its performance ("Solvency II", "Solvency II provisions") and the change (creation / releasing) of technical provisions in insurance pursuant to Act No 563 / 1991 Coll., On accounting, as amended ("Act on Accounting", "Accounting provisions"). Accounting provisions thus become non-deductible for tax purposes and the provisions under Solvency II increased by the balance of deferred acquisition costs thus become tax deductible.

In the first 2 tax periods beginning from the date of entry into force of this Act, the income tax base always increases by one half of the difference between the amount of accounting provisions and provisions according to Solvency II as of 1 January 2020, resp. as of December 31, 2019.

The impact on the calculation of the provision for current and deferred tax is described in Chapter 4.14. Taxes.

2.20. Deferred Income Tax

Deferred income tax is provided using the balance sheet method, for all temporary differences arising between the tax basis of assets and liabilities and their carrying values for financial reporting purposes. Deferred income tax is determined using tax rates effective in the periods in which the temporary tax difference is expected to be realised. The principal temporary differences arise from depreciation on tangible and intangible fixed assets, creation of reserves and revaluation of debt securities.

As at 31 December 2020, the Company recognised a deferred tax liability. To the end of year 2021, Company recognised a deferred tax asset.

2.21. Foreign Currency Retranslation

Transactions during the year were retranslated at the Czech National Bank's exchange rate prevailing as of the transaction date or at the rate at which the transaction was realised. Assets and liabilities denominated in foreign currencies at the year-end are retranslated using the Czech National Bank's exchange rate prevailing as of that date. Foreign exchange rate gains and losses are recognised through the profit and loss account, except for the foreign-currency debt securities for which these foreign exchange gains or losses are included in revaluation at fair value recognized in equity in connection with the recognition of Hedging derivatives, which is described in section 2.3.

2.22. Consolidation

These financial statements have been prepared on an unconsolidated basis. The Company's financial information is included in the consolidated financial statements of Komerční banka, a.s., having its registered office at Na Příkopě 33/969, Prague 1, 114 07, and SOGECAP S.A., having its registered office at Tour D2, 17 bis place des reflets, 92919 Paris La Défense Cedex, France, which can be obtained at the same place.

2.23. Use of Estimates

The presented financial statements for the year ended 31 December 2021 are based on the best estimates available as of the reporting period end which specifically relate to the determination of fair values of financial instruments, impairment of assets and determination of reserves. Management of the Company believes that the financial statements give the truest and fairest view of the Company's financial results and financial position using all relevant and available information at the financial statements date.

2.24. Going concern

The financial statements have been prepared under the going concern assumption. See section 6 Other events.

3. Risk management

The control system of the Company is set up to allow a continuous and systematic risk management.

The Company is exposed to insurance risk which naturally results from the underwritten insurance contracts as well as other risks, mainly the market risk, credit risk, operational risk, liquidity risk and concentration risk.

The policies and procedures for risk management are comprehensive and interrelated with the policies and procedures for maintenance of the capital determined to cover these risks.

The Company's Board of Directors has the primary responsibility for risk management system effectiveness.

(a) Life insurance risk

The Company is exposed to risks resulting from an unfavourable development of assumptions compared to their determination at the moment of valuation of products. This involves, for example, the risk of unfavourable development of mortality, morbidity or survival, risk of a unfavourable development of interest rates, risk resulting from an unexpected development of cost inflation or uncertainty

in the expected future claims settlement. In the above cases the Company is exposed to the danger of a loss resulting from the discrepancy between collected premiums and claims paid, investment returns and expenses.

The Company reinsures some of the risks and underwrites them with external reinsurers.

(b) Non-life insurance risk

The Company is exposed to insurance risk and underwriting risks arising from the sale of non-life insurance products.

Insurance risk relates to uncertainty in respect of the period, frequency and amount of damage covered by insurance contracts or uncertainty in the expected future claims settlement

The most significant components of insurance risk are the risk of underestimated technical provisions and the premium risk. The premium amount is determined using historical assumptions, which may differ from the actual situation. The risk of trend, risk of estimate, change in assumption, etc., may have a significant impact on determining the amount of provisions.

(c) Market risk

The Company is exposed to market risk, which arises from trading positions in interest rate, currency and equity instruments that are all exposed to common and specific changes in the market.

The main exposure is that the revenues from investments will not be sufficient to cover the liabilities from insurance contracts.

The market risk is constantly monitored, measured and managed using asset/liability management (ALM). The basic method of ALM involves adjusting the due date of assets to the liabilities from insurance contracts.

(d) Credit risk

The Company is exposed to the credit risk, which arises from the counterparty failing to pay the amounts due in full.

The main areas of the Company's exposure to the credit risk are risk of failure to repay the principal or the income from financial investments and insurance and reinsurance receivables.

(e) Operational risk

Operational risk is the risk arising from the failure of internal processes, human resources or systems, or the risk of loss that may arise due to external events, including the risk of loss arising from a breach of or noncompliance with a legal standard.

Loss means any harm or damage incurred by the Company.

The Company monitors these risks, modifies work procedures and processes to eliminate the loss events.

(f) Liquidity risk

The Company is exposed to requirements for liquidity on a daily basis. These requirements are related to claim settlements. The liquidity risk is a risk that the cash necessary for payment of liabilities will not be available at the due date and at adequate cost.

The need for liquidity is continuously monitored in order to ensure necessary resources.

(g) Concentration risk

Concentration risk arises when the investment portfolio is not well enough diversified. This situation may lead to significant financial losses in case of a counterparty default.

The company invests in the wide spectrum of financial assets observing the rules of its financial strategy that is based on the cautious behaviour principle. In each asset category the investments are diversified according to geographical areas, issuers and sectors.

The strategy implementation is performed using the definition of limits, thresholds and restrictions. The investment with the high concentration risk are regularly overseen and evaluated.

4. Additional information to the financial statements

4.1. Tangible and Intangible Fixed Assets

The assets shown in the tables below represent tangible and intangible fixed assets reported within the following balance sheet lines:

Acquisition cost

(CZK thousand)	Additions	Disposals	31 December 2021	31 December 2020
Tangible assets	1,614	10,737	30,777	39,900
Non-depreciated tangible assets	0	0	236	236
Technical improvements of tangible assets	0	0	0	0
Acquisition of tangible assets	1,614	1,614	0	0
Total	3,228	12,351	31,014	40,137

(CZK thousand)	Additions	Disposals	31 December 2021	31 December 2020
Intangible assets	7,483	0	296,814	289,331
Technical improvements of intangible assets	1,991	2,025	123	157
Acquisition of intangible assets	5,458	5,458	0	0
Total	14,932	7,483	296,937	289,487

Accumulated Depreciation

(CZK thousand)	Additions	Disposals	31 December 2021	31 December 2020
Tangible assets	6,346	10,737	25,325	29,716
Intangible assets	11,385	0	284,024	272,639
Total	17,731	10,737	309,349	302,354

Net Book Value

(CZK thousand)	31. December 2021	31. December 2020
Tangible assets	5,452	10,184
Non-depreciated tangible assets	236	236
Technical improvements of tangible assets	0	0
Acquisition of assets	0	0
Total	5,689	10,421

(CZK thousand)	31. December 2021	31. December 2020
Intangible assets	12,790	16,692
Technical improvements of intangible assets	123	157
Acquisition of assets	0	0
Total	12,913	16,848

(CZK thousand)	31. December 2021	31. December 2020
Intangible assets (line 2)	5 689	10,421
Tangible movable assets (line 29)	12,913	16,848
Total	18,601	27,269

Major additions to the tangible depreciated assets both in 2021 and 2020 were related to the purchase of hardware (2021: CZK 888 thousand and 2020: CZK 2,615 thousand).

With respect to the amortised intangible assets, the Company invested in 2021 into development of new web pages, system for calculation of non-life insurance reserves (total of CZK 5,292 thousand) and into software Jupiter and DMS (Data Management system) (2021: CZK 2,025 thousand and 2020: CZK 6,968 thousand).

4.2. Investments

Group of assets (CZK thousand)	31. December 2021	31. December 2020
Debt securities issued by an EU member state or its central bank	17,144,033	18,134,384
Debt securities issued by financial institutions of EU member states	8,278,918	9,691,533
Listed bonds issued by EU businesses	2,811,223	3,759,057
Listed municipal bonds	0	655,758
Listed debt securities issued by banks and trading companies of non-EU member states	3,702,896	4,495,691
Total fixed income securities	31,937,070	36,736,424
Shares and KB Real estate Fund	3,010,278	2,856,216
Deposits with banks	1,242,000	966,000
Other investments – Cross Currency Swap	-765,233	-472,485
Total investments	35,424,115	40,086,155

42.5% (2020: 39.6%) of investments are allocated to government bonds issued by the Czech Republic. Investments have also been allocated to debt securities issued by banks, bonds issued by businesses (registered both in the Czech Republic and abroad), municipal bonds, shares, KB Real estate Fund and bank deposits.

As of 31 December 2021 and as of 31 December 2020 the bad debt provision to bonds was zero.

Investments in equity funds and bond funds are an additional tool included in the portfolio. At the end of 2021, the volume of these investments reached 5.31% (2020: 4.28%).

At the end of 2021, the volume of investments in real estate funds (KB Realitní fondy) reached 3.19% (2020: 2.85%), which represented an investment of CZK 1,129,437 thousand (2020: CZK 1,142,092 thousand).

The fair value of the Cross Currency Swaps can be split into swaps with a positive fair value in the total amount of CZK 90,821 thousand (2020: CZK 247,786 thousand) and negative fair value in the total amount of CZK 856,055 thousand (2020: CZK 720,270 thousand).

In 2021, in addition to bonds denominated in CZK (acquisition price CZK 3.6 billion).

In 2020, apart from the bonds denominated in CZK (acquisition cost amounted to CZK 4.05 billion), 4 bonds denominated in EUR were purchased in total amount of CZK 1.16 billion.

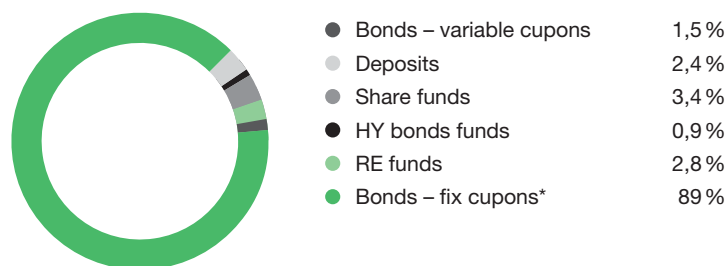

The future foreign-currency cash flows from these investments were hedged against the currency risk by the retranslation of cash flows from the foreign-currency bonds into Czech crowns at a previously stipulated exchange rate using the cross-currency swaps. The foreign-currency bonds were purchased because of their higher yield offered by issuers on the European financial market compared to the domestic market.

* includes also cross currency swaps

Company portfolio of investments as of 31 December 2020 (%)

* includes also cross currency swaps

Investment life insurance where the policyholder carries the investment risk

As of 31 December 2021, the fair value of Investments to life insurance where the investment risk is carried by the policyholder was CZK 14,466,598 thousand (2020: CZK 12,847,593 thousand). Significant part of the investments to life insurance where the investment risk is carried by policyholder is placed in bond funds.

4.3. Debtors (Receivables)

Analysis of receivables (gross amount)

(CZK thousand)	31. December 2021	31. December 2020
Receivables from direct insurance from policy holders	66,607	58,483
Receivables from agents (brokers)	0	0
Amounts due from reinsurance transactions	26	0
Total receivables from direct insurance and reinsurance	66,633	58,483
Other receivables from direct insurance and reinsurance	6,998	9,014
Operating prepayments	33,964	34,979
Other debtors	10,167	852
Prepaid income tax	114,684	83,963
Deferred tax asset	1,096,879	0
Total receivables	1,329,325	187,291

(CZK thousand)	31 December 2021	31 December 2020
Total receivables	1,329,325	187,291
Total Bad Debt Provision	-21,057	-20,360
Total Netto Receivables (line 25)	1,308,268	166,931

Direct insurance receivables from policyholders increased due to a higher stock of contracts in force at the end of 2021.

Other receivables from direct insurance and reinsurance as at 31 December 2021 and identically as at 31 December 2020 arose due to the time lag between the remittance of claims payments through the cheque collection system and the AIA4 system and their settlement (i.e. settlement of claims against the relevant policyholder liability account).

As of 31 December 2021, operating prepayments totalling CZK 33,964 thousand (2020: CZK 34,979 thousand) primarily include bonus prepayments related to collective insurance contracts of CZK 20,623 thousand (2020: CZK 25,290 thousand), a prepayment of CZK 5,632 thousand provided to Inter Partner Assistance (2020: CZK 2,241 thousand) and a rental guarantee payment of CZK 4,971 thousand (2020: CZK 4,237 thousand).

As of 31 December 2021, other debtors consist mainly of receivable to excupon in the amount of CZK 9 059 thousand. In 2020 there was a receivable to tax office amounting to CZK 810 thousand.

In the line Prepaid income tax there is indicated advanced income tax payment for 2021 in amount of CZK 114,684 thousand (2020: CZK 83,963 thousand).

At the end of 2021, it was recorded a deferred tax asset in the amount of CZK 1,096,879 thousand (see chapter 4.14. Tax).

As at 31 December 2020, a deferred tax liability is recorded in the amount of CZK 108,868 thousand.

Aging Analysis of Receivables from Direct Insurance for Policy Holders:

(CZK thousand)	Months past due date 2021				Total
	0-3	4-6	7-12	Over 12	
Life insurance	24,020	3,351	1,166	6,035	34,573
Non-life insurance	15,919	2,277	705	13,133	32,034
Total	39,939	5,628	1,871	19,168	66,607

(CZK thousand)	Months past due date 2020				Total
	0-3	4-6	7-12	Over 12	
Life insurance	16,866	7,343	1,116	6,376	31,700
Non-life insurance	10,636	2,078	571	13,498	26,783
Total	27,501	9,421	1,686	19,874	58,483

The Company recognised the provisions against receivables only for individual insurance policies. For collective insurance policies, i.e. Merlin, Group risk life insurance, International products or Consumer loans life insurance, the risk of default is on the side of policy holders and no provisions are recognised.

Ageing Analysis of Bad Debt Provisions

(CZK thousand)	Months past due date 2021				Total
	0-3	4-6	7-12	Over 12	
Life insurance	-	792	877	5,593	7,261
Non-life insurance	-	359	296	13,140	13,795
Total	-	1,151	1,172	18,733	21,057

(CZK thousand)	Months past due date 2020				Total
	0-3	4-6	7-12	Over 12	
Life insurance	-	395	776	5,785	6,956
Non-life insurance	-	148	220	13,036	13,404
Total	-	542	996	18,821	20,360

4.4. Cash on accounts with financial institutions and cash on hand (Cash and Cash Equivalents)

(CZK thousand)	31 December 2021	31 December 2020
Current accounts	12,611	76,921
Cash on hand	60	48
Cash equivalents	347	541
Cash in transit	-2,048	-3,034
Provision against UB	-58	-58
Total	10,913	74,418

The Company recognised a full provision against its current account maintained with Union banka, amounting to CZK 96 thousand in 2003. In 2004, 2010 and 2017 this outstanding receivable was partly settled in the amount of CZK 38 thousand (2021 no settlement). The underlying provision was reduced by the same amount. The Company will record the provision until the liquidation of Union banka is completed.

Item cash in transit contains unconverted transaction related to investments. As at the year end of 2021 (and 2020 as well) the purchases were higher than sales, the cash in transit is negative (all transactions were settled after the year-end).

4.5. Temporary Assets

Analysis of temporary assets

(CZK thousand)	31 December 2021	31 December 2020
Deferred acquisition costs	365,454	294,329
of which: Non-life insurance commissions	77,565	60,333
of which: Life insurance commissions	287,889	233,996
Other deferred expenses	233,876	225,054
of which: capitalized expenses of selected projects	220,311	215,116
of which: other deferred expenses	13,564	9,938
Estimated receivables	136,176	146,192
of which: premiums	28,358	30,726
reinsurer's commission and share in claims	79,173	76,425
other commissions	28,645	39,041
Total	735,506	665,575

Deferred acquisition costs from Life insurance increased mainly due to ELÁN product (risk life insurance sold by brokers) CZK 177,975 thousand in 2021 (2020: CZK 109,535 thousand).

The accrual of acquisition costs for non-life insurance increased to EUR 77 565 thousand in 2021 (2020: CZK 60,333 thousand) mainly due to sales of the property insurance product through other distribution channels.

The most important project of the year 2021 created by own and extern force and finished in 2021 includes IT transformation (AIA3 and VVS migration into AIA4) in total amount of CZK 31,007 thousand (2020 CZK 29,049 thousand), AML project CZK 6, 130 thousand (2020 CZK 10,878 thousand), GDPR CZK 3,046 thousand and other project in total amount of CZK 8,877 thousand (2020 CZK 25,125 thousand).

The balance of estimated receivables from premiums as of 31 December 2021 of CZK 28,358 thousand (2020: CZK 30,726 thousand) results from the contracts settlement of reinsurance balances which are not entered into system to the closing date of the accounts.

The balance of estimated receivables from reinsurer's commission and share of reinsurer as of 31 December 2021 of CZK 79,173 thousand (2020: CZK 76,425 thousand) results from the settlement of reinsurance balances mainly for the last quarter of 2021.

Other estimated receivables results mainly from not invoiced management fees related to sale of Certus and Protective funds amounting to CZK 25,463 thousand (2020: CZK 27,304 thousand).

4.6. Equity

(CZK thousands)	31. December 2021	31. December 2020
Share capital	1,175,398	1,175,398
Other capital funds	-1,706,536	536,310
– valuation gains and losses of securities	-1,367,911	1,088,336
– valuation gains and losses of derivatives	-735,015	-428,480
– up-front fees	-3,909	2,255
– deferred tax	400,299	-125,801
Retained earnings	1,175,023	1,175,018
Profit/(loss) for the period	654,114	392,693
Total	1,297,999	3,279,418

The year-on-year change in other capital funds, or the revaluation of securities and derivatives, is mainly related to the increase in interest rates in 2021.

The planned profit distribution is subject to the approval of the Company's General Meeting.

Dividends in amount of CZK 392,688 thousand were paid in 2021 from the 2020 profits. The remainder of the profit after payment of the dividend was transferred to Retained earnings of previous years. No dividends were paid from the profit of 2019 in 2020. The entire profit for 2019 was transferred to the item Retained earnings of previous years.

4.7. Subordinated liabilities

The company accepted a subordinated debt in the amount of CZK 900,000 thousand in 2020. Subordinated debt is for a period of 10 years and an annual interest rate is 2.83%. The amount of the principal of the subordinated debt as at 31 December 2021 was CZK 900,000 thousand (31 December 2020: CZK 900,000 thousand) and the amount of the aliquot interest expense for 2021 was CZK 25,541 thousand (31 December 2020: CZK 10,613 thousand). The counterparty to the transaction is the companies in the SG group.

Subordinated debt – counterparties

(CZK thousand)	31 December 2021	31 December 2020
SOGECAP S.A.	459,000	459,000
Komerční banka, a.s.	441,000	441,000
Total	900,000	900,000

4.8. Technical Reserves

(CZK thousand)	31. December 2021			30. December 2020
Name of reserve	Gross balance	Reins. share	Net balance	Net balance
Life insurance reserve	33,128,809	1,808,368	31,320,441	33,550,209
Life insurance reserve where the investment risk is assumed by the policy holder	14,466,598	0	14,466,598	12,847,593
IBNR reserve	338,090	2,066	336,023	266,489
of which:				
Non-life insurance	129,601	2,066	127,534	82,954
Life insurance	208,490	0	208,490	183,535
RBNS reserve	456,676	47,100	409,576	475,859
of which:				
Non-life insurance	86,255	14,105	72,149	61,118
Life insurance	370,421	32,994	337,427	414,741
Reserve for bonuses and discounts	1,598,227	0	1,598,227	1,398,209
of which:				
Non-life insurance	227	0	227	209
Life insurance	1,598,000	0	1,598,000	1,398,000
Reserve for unearned premiums	172,553	134	172,419	127,840
of which:				
Non-life insurance	139,958	134	139,824	99,749
Life insurance	32,595	0	32,595	28,091
Other technical reserve	85,998	0	85,998	330,787
Technical reserve – life insurance total	35,424,313	1,841,363	33,582,950	35,905,364
Technical reserve – non-life insurance total	356,040	16,306	339,735	244,030
Technical reserve – Life insurance reserve where the investment risk is assumed by the policy holder	14,466,598	0	14,466,598	12,847,593

4.9. Result of Non-Life Insurance Claims Settlement – Run-Off Analysis (Net)

(CZK thousand)	2021	2020
Balance of the reserve for claims as of 1 January	143,138	126,411
Claims paid in the current period arising from claims from the prior period	19,639	21,292
Balance of the reserve for claims as of 31 December	114,762	76,402
Result of claims settlement	8,737	28,717

4.10. Result of Life Insurance Claims Settlement – Run-off Analysis (Net)

(CZK thousand)	2021	2020
Balance of the reserve for claims as of 1 January	304,855	281,410
Claims paid in the current period arising from claims from the prior period	100,506	91,049
Balance of the reserve for claims as of 31 December	183,401	178,469
Result of claims settlement	20,949	11,892

The run-off analysis (net) of life insurance products is presented for risk and accident riders. The run-off in respect of insurance capital products is zero.

4.11. Reserves (Reserves for Other Risks and Losses)

(CZK thousand)	31 December 2021	31 December 2020
Reserve for corporate income tax	832,810	105,980
Other reserves	11,856	11,263
Total reserve for other risks and losses	844,666	117,243

The year-on-year increase in the provision for corporate income tax is mainly related to the taxation of provisions under Solvency II, which enter the tax base. In connection with the increase in interest rates in 2021, the technical provisions under Solvency II were reduced and therefore the tax base increased.

Other reserves include particularly reserve for unused holidays, annual letters and reserve for the audit.

4.12. Creditors (Payables)

(CZK thousand)	31 December 2021	31 December 2020
Payables from direct insurance to the policy holders	117,460	90,954
Payables to insurance brokers	0	0
Payables from reinsurance transactions	4,438	3,580
Total payables from direct insurance and reinsurance	121,898	94,533
Payables to staff from dependent activities	21,656	19,687
Settlement balances with social security and health insurance institutions	12,308	12,125
Other payables	80,655	49,725
Other direct taxes	9,863	5,416
Other indirect taxes and fees	2,921	3,300
Deferred tax liability	0	108,868
Total payables	249 302	293,655

Payables from direct insurance to the policy holders predominantly include premium overpayments CZK 69,600 thousand (2020: CZK 68,900 thousand) and unmatched premium payments CZK 16,370 thousand (2020: CZK 9,114 thousand).

As of 31 December 2021, the Company records overdue payables from direct insurance to the policy holders older than 5 years in the amount of CZK 8,620 thousand (2020: CZK 7,334 thousand). These consist of premiums overpayments.

Other payables that do not relate to insurance predominantly include liabilities from business intercourse and liabilities to brokers for unpaid commissions. The increase compared to 2020 is mainly due to an increase in Suppliers (KB) and Suppliers (MPSS) due to unpaid commissions for the end of 2021.

None of the Company's payables were secured by a pledge or any other charge as of 31 December 2021 and as of 31 December 2020.

The Company recorded a Deferred Tax Asset at the end of 2021 – see section 4.14. Tax.

4.13. Temporary Liabilities

Analysis of Temporary Liabilities

(CZK thousand)	31 December 2021	31 December 2020
of which: Reinsurer's share in premiums	49,166	41,165
Commissions to acquirers	143,950	151,505
Insurance claims	8,633	5,858
Other	70,390	71,498
Total temporary liabilities	272,139	270,025

Estimated commissions payables to distributors of CZK 143,950 thousand (2020: CZK 151,505 thousand) represent an estimate of unpaid commissions. This balance predominantly consists of bonuses not paid to ESSOX amounting to CZK 26,260 thousand (2020: CZK 33,517 thousand) and bonuses not paid to Komerční banka, a.s. totalling CZK 77,296 thousand (2020: CZK 82,228 thousand).

Other temporary liabilities of CZK 70,390 thousand (2020: CZK 71,498 thousand) principally comprise unbilled supplies of CZK 60,501 thousand (2020: CZK 62,586 thousand) and costs of staff bonuses for 2021 amounting to CZK 8,846 thousand (2020: CZK 8,040 thousand).

4.14. Taxation

The income tax due was calculated as follows:

(CZK thousand)	2021	2020
Profit /(Loss) before taxation	809,125	482,754
Revenues exempted from taxation (rate of 19%) (except technical provisions below)	-48,993	-62,998
Tax non deductible expenses (except technical provisions below)	36,121	41,287
Tax non deductible expenses (+)/revenues (-) – technical provisions according to CAS GAAP (netto)	-607,702	2,176,866
Solvency II technical provisions (netto)	4,176,228	-2,106,559
Tax base	4,364,778	531,349
Income tax due in amount of 19%	829,308	100,951
Tax arising from independent tax base	3,502	5,030
Income tax due	832,810	105,980
Impact to P&L arising from last year income tax report (provision vs. final tax)	1,817	-2,006
Total income tax due	834,627	103,974

The line “Non-tax deductible expenses/revenues – accounting provisions (netto)” quantifies the net impact on the income statement resulting from the change in accounting provisions in 2021, which became non-deductible from 1 January 2021.

The line “Solvency II technical provisions (netto)” quantifies the net impact on the income statement resulting from the change in Solvency II provisions in 2021 and also the impact from the inclusion of half of the initial balance of provisions, i.e. the difference between the amount of accounting provisions and provisions according to Solvency II as at 1 January 2021, resp. as of December 31, 2020.

The year-on-year increase in the provision for corporate income tax is mainly related to the taxation of provisions under Solvency II, which enter the tax base. In connection with the increase in interest rates in 2021, the technical provisions under Solvency II have decreased and therefore the tax base or tax payable has increased. At the same time, we recognise deferred tax on the difference between the tax (Solvency II) and accounting technical provisions.

Deferred tax asset (+)/ liability (-) is being analysed accordingly:

(CZK thousand)	31 December 2021	31 December 2020
Deferred tax payable:		
Net book value of tangible and intangible fixed assets	0	-64
Non current financial assets	0	-125,801
Deferred tax payable total	0	-125,865
Deferred tax receivable:		
Net book value of tangible and intangible fixed assets	1,295	0
Non current financial assets	400,299	0
Technical Reserves	691,378	13,358
Other Reserves	2,226	2,111
Bonuses	1,681	1,528
Deferred tax asset total	1,096,879	16,996
Net deferred tax asset/liability (+/-) as of December 31	1,096,879	-108,868

The year-on-year change in deferred tax on financial investments, or revaluation of securities and derivatives, is mainly related to the increase in interest rates in 2021.

The year-on-year change in deferred tax on provisions is also related to the increase in interest rates in 2021, which subsequently reduced the value of technical provisions under Solvency II.

At the same time, the Company performed a recoverability test of the deferred tax asset, based on which it recognised the deferred tax asset in full, i.e. in the amount of CZK 1 096 879 thousand. The Company expects to achieve sufficient tax bases to make it realizable.

The deferred tax asset recoverability test took into account current macroeconomic developments (including current forecasts for the next few years) and the Company's expected business and financial plan over the next 10 years. The calculation was based on the Company's detailed plan for the next 4 years and a simplified model based on the projection of revenues and expenses according to their further expected year-on-year development over a 5-10 year horizon.

At the same time, various stress scenarios were tested in the event that the Company's plan was not met, namely in particular with regard to the development of interest rates and the achievement of the business plan. The scenarios tested were (i) a rise in rates above the current forecast, (ii) the ORSA stress scenario of the business plan, (iii) failure to meet the year-on-year growth in the risk life and non-life business and (iv) forced asset sales.

The change in the net deferred tax asset/liability can be analysed as follows.

(CZK thousand)	2021	2020
Net deferred tax receivable/payable (+/-) as of January 1	-108,868	30,308
Change of deferred tax recognized in profit and loss statement	679,648	13,944
Change of deferred tax recognized in equity	526,100	-153,120
Net deferred tax receivable/payable (+/-) as of December 31	1,096,879	-108,868

Total Current income tax:

(CZK thousand)	2021	2020
Total income tax due	834,627	103,974
Change of deferred tax recognized in profit and loss statement	-679,648	-13,944
Income tax due	154,980	90,030

As at 31 December 2021, the Company has recognised a deferred tax receivable in the amount of CZK 1 096 879 thousand.

As at 31 December 2021, the Company has recognised a deferred tax payable in the amount of CZK 108 868 thousand.

4.15. Non-life insurance

Line	Insurance class	Year	Gross premiums written	Gross premiums earned	Gross claims paid	Gross operating expenses	Reinsurance balance
			2	2, 4	10	18, 19, 20	3, 5, 11, 14, 21
Accident and sickness	1, 2	2021	30,434	30,590	7,259	20,331	-859

4.17. Territorial Analysis of Total Premium Written

The Company entered into insurance contracts in the Czech Republic, Bulgaria, Romania and Germany.

(CZK thousand)	2021	2020
Written premium arise from contracts into which the Company entered:		
in the EU member state where it has its registered office	7,251,399	7,383,741
in other EU member states	91,863	116,685
Total premiums written	7,343,262	7,500,425

4.18. Summary of Commissions

The total balance of commissions in respect of direct insurance amounted to CZK 359,980 thousand in 2020 (2019: CZK 334,848 thousand) and was segmented as follows:

(CZK thousand)	Life insurance		Non-life insurance	
	2021	2020	2021	2020
Expenses on commissions	290,996	229,492	159,346	130,488

4.19. Income and Expense Related to Investments of Technical Reserves

For the year ended 31 December 2021, the net income on the Company's investments amounted to CZK 847,854 thousand (2020: CZK 594,438 thousand), of which the net income from assets generated from technical reserves amounted to CZK 831,242 thousand (2020: CZK 564,048 thousand).

As discussed in Note 2.15, income and expense from investments are recorded primarily on the life insurance technical account during the reporting period.

At the year-end, net financial income unrelated to life insurance is reallocated to the non-technical accounts (2021: CZK 18,934 thousand, 2020: CZK 32,144 thousand) and subsequently re-allocated to the non-life insurance technical accounts (2021: 2,322 thousand, 2020: CZK 1,753 thousand).

Year	2021		2020	
	Life insurance	Non-life insurance	Life insurance	Non-life insurance
Year-end net balances of reserves	35,338,316	356,041	37,631,899	254,948
Year-end net balances of reserves – investment risk is borne by the policy holder	14,466,598	0	12,847,593	0
Income from reserves	828,919	2,322	562,294	1,753

4.20. Change in other technical provisions, net of reinsurance

In accordance with the procedures set forth in item 2.8. the Company accounted for the following changes in technical provisions:

(CZK thousand)	2021	2020
Change in life insurance premium (line C.2. in Balance sheet)	-2,229,768	-159,367
Change in other technical provisions (line C.6 in Balance sheet)	-244,789	147,622
Subtotal Change in life insurance premium – net amount in Profit and Loss statement	-2,474,557	-11,745
Change in provision for bonuses and discount (line C.4 in Balance sheet)	200,018	-260,012
Change in Unit link life insurance provision (line D. in Balance sheet)	1,619,005	2,286,167
Subtotal Change in other technical reserves in Profit and Loss Statement	1,819,023	2,026,155
Change in provision for unearned premium – life insurance business (line C.1a) in Balance sheet)	4,504	623
Change in provision for unearned premium – non-life insurance business (line C.1b) in Balance sheet)	40,075	17,628
Subtotal Change in provision for unearned premium – net amount in Profit and Loss statement	44,579	18,251
Change in provision for outstanding insurance claims – life business (line C.3a) in Balance sheet)	-52,360	127,826
Change in provision for outstanding insurance claims – non-life business (line C.3b) in Balance sheet)	55,612	16,378
Subtotal Change in provision for unearned premium – net amount in Profit and Loss statement	3,252	144,204
Total Change in technical provisions – net amount in Profit and Loss statement	-607,703	2,176,865

4.21. Unrealized gains and losses on investments

Unrealized gains and losses on investments include revaluation of Life insurance reserve where the investment risk is carried by the policyholder and the revaluation of KB Real estate funds and shares.

(CZK thousand)	2021	2020
Unrealised gains/losses on shares (+/-)	218,044	-70,086
Unrealised gains/losses from revaluation of KB Real Estate funds (+/-)	-3,714	-3,825
Unrealised gains/losses from investment where the investment risk is assumed by the policy holder (+/-)	-549,480	195,905
Total	-335,150	121,994

Realized gains from sale of securities.

(CZK thousand)	2021	2020
Realised gains/losses from sale on shares (+/-)	8,733	0
Realised gains/losses from sale on bonds (+/-)	8,895	-21,110
Total	17,628	-21,110

4.22. Administrative Expenses

The total amount of administrative expenses was CZK 514,461 thousand in 2021 (2020: CZK 484,476 thousand). The administrative expenses are analysed as follows:

(CZK thousand)	2021	2020
Staff cost (wages, social security and health insurance)	290,924	274,800
Training	2,363	1,980
Advisory services	55,705	57,375
Telecommunication	1,951	1,779
IT costs	35,593	34,584
Tangible and Intangible asset Depreciation	17,730	16,920
Depreciation of capitalised cost of selected projects	43,864	29,275
Rental	22,631	22,862
Banking and postal fees	10,390	9,362
Other administrative costs	33,311	35,537
Total	514,461	484,476

The costs of the audit of the financial statements amounted to CZK 2,623 thousand in 2021 (2020: CZK 2,539 thousand). No other services were provided by audit service company in 2021 and 2020.

4.23. Other Technical Income and Expenses and Non-Technical Account

Other technical income on non-life insurance amounted to CZK 612 thousand (2020: CZK 2,456 thousand). The most significant item in 2021 was foreign exchange gains in the amount of CZK 565 thousand. In the year 2020 most significant item was foreign exchange gains in the amount of CZK 2,195 thousand.

Other technical expenses of non-life insurance amounting to CZK 37,805 thousand (2020: CZK 47,111 thousand) mainly include cost of bonuses totalling CZK 34,457 thousand (2020: CZK 41,974 thousand).

Other technical income of life insurance in total amount of CZK 122,169 thousand (2020: CZK 126,884 thousand) primarily includes the management fee for the sale of Certus and Protective fund amounting to CZK 48,297 thousand (2020: CZK 65,656 thousand).

Other technical expenses of life insurance in total amount of CZK 216,757 thousand (2020: CZK 232,531 thousand) include items relating to the cost of bonuses in the amount of CZK 33,233 thousand (2020: CZK 39,845 thousand) and management fees in the amount of CZK 173,951 thousand (2020: 176,431 thousand).

4.24. Reallocation of Costs between Technical and Non-Technical Accounts

The aggregate balance of costs re-allocated between the life insurance technical accounts, the non-life insurance technical accounts and the non-technical accounts on the basis as disclosed in Note 2.15 as of 31 December 2021 amounted to CZK 514,461 thousand (2020: CZK 484,476 thousand).

4.25. Transactions with Related Parties

Income from companies within the group (CZK thousand)	2021	2020
Gross written premiums	440,969	456,323
Income from investments (cross currency swaps and accrued interest)	514,173	593,177
Other income	80,270	70,094
Profit sharing – reinsurer	25,366	26,277
Direct premiums ceded to reinsurer	-90,290	-87,562
Reinsurers share of provision for life insurance	-256,173	-119,166
Reinsurers share of claims provision	-179,525	-16,799
Total income	534,791	922,344
Costs towards companies within the group		
Commissions/variable bonuses	523,533	518,181
Reinsurers share on costs for insurance claims	-251,904	-145,259
Costs linked to investments (cross currency swaps)	714,864	821,932
Reinsurers share of provision for life insurance	-83,836	-85,614
Reinsurers share of claim provision	-204,830	-11,899
Other costs	46,221	56,150
Total costs	744,048	1,153,490
Receivables from companies within the group		
Securities and other investments	1,286,189	2,074,021
Current accounts and deposits	1,254,544	1,042,854
Receivables from insurance	45,511	48,300
Estimated receivables	261,007	239,883
Total receivables	2,847,251	3,405,058
Payables to companies within the group		
Payables from reinsurance and other payables	962,808	939,392
Fair value – cross currency swaps	765,233	472,485
Reinsurers share of provision for life insurance	-1,808,368	-2,051,261
Reinsurers share of claims provision	-20,701	-1,169
Estimated payables	153,672	167,202
Total payables	52,644	-473,351

The increase in the Reinsurer's share of provision for life insurance and claims provision is due to higher surrenders mainly on the Vital Premium EUR and Vital Premium USD products.

4.26. Profit/(Loss)

(CZK thousand)	2021	2020
Non-life insurance	112,271	100,945
Life insurance	680,242	351,418
Non-technical account (before tax)	16,612	30,391
Profit/(loss) before tax	809,125	482,754
Income tax and other taxes	155,011	90,061
Profit/(loss) for the accounting period	654,114	392,693

4.27. Staff Costs and Similar Costs

Staff and similar costs paid by the Company were as follows:

2021				
(CZK thousand)	Average recalculated headcount	Wages and salaries	Social security and health insurance	Total staff costs
Staff	226	201,898	62,336	264,234
Management	5	21,842	4,847	26,690
Total	231	223,740	67,184	290,924

2020				
(CZK thousand)	Average recalculated headcount	Wages and salaries	Social security and health insurance	Total staff costs
Staff	229	186,530	59,178	245,708
Management	6	24,016	5,076	29,092
Total	235	210,547	64,254	274,800

As of 31 December 2021 the Company enables twenty employees to use business cars for both business and private purposes (as of 31 December 2020 twenty employees). The Company has provided no other advances, borrowings or loans to the members of its statutory, executive and supervisory bodies in addition to this benefit.

4.28. Reinsurance

The aggregate reinsurance result

(CZK thousand)	2021	2020
Reinsurer's share of premiums	-189,702	-212,666
Reinsurer's share of insurance claims	288,832	241,459
Commissions	61,685	54,697
Reinsurance balance	160,815	83,490
Reinsurer's share on the creation and use of reserves	-140,016	-57,892
Reinsurance result	20,799	25,598

The amounts due from and to reinsurers:

(CZK thousand)	31 December 2021	31 December 2020
Receivable from reinsurers	26	0
Estimated receivable	79,173	68,399
Payable to reinsurers	-4,438	-8,681
Estimated payable	-49,166	-44,631
Net receivable (payable) from reinsurers	25,595	15,088

5. Off-balance sheet commitments

The Company is not aware of any off-balance sheet commitments.

6. Other events

Interest rates

During 2021, the CNB base rate (two-week repo rate) was increased several times, reaching 3.75% at the end of 2021 (0.25% as at 31 December 2020). Subsequently, there were increases in CZK interest rates on the financial markets. Impact on the Company was the decrease in fair value of investments, primarily bonds and swaps, see section 4.6 Equity and the increase in deferred tax asset due to negative revaluation of bonds and swaps, see section 4.14 Taxes. The Company has assessed regulatory compliance and the increase in interest rates has no impact on the Company's going concern.

7. Significant post balance sheet events

The Company is not aware of any significant subsequent events that occurred after the balance sheet date and that would affect the financial statements.

War in Ukraine

The Company's management has considered the potential impact of the war in Ukraine on its operations and business and has concluded that it will not have a material impact on the Company's results in 2021 or subsequent events after the date of the financial statements. The Company does not hold any investments in Russia.

In connection with the new sanctions measures, the Company monitors its insurance tribe and its suppliers and intermediaries on a daily basis.

Report on Relations among Related Entities for the year ended 31 December 2021

(hereinafter referred to as the "**Report on Relations**")

Komerční pojišťovna, a.s., with its registered office in Prague 5, náměstí Junkových 2772/1, 155 00, Corporate ID: 63998017, incorporated in the Register of Companies maintained by the Municipal Court in Prague, Section B, File 3362, (hereinafter the "**Company**"), is part of a business group (holding company) where the following relations exist: between the Company and its controlling entity and further between the Company and other entities controlled by the same controlling entities (hereinafter the "**business group**").

¹⁾ They are companies controlled by SG Paris, both directly and indirectly, pursuant to Section 74 (1) of the Business Corporations Act.

The role of the Company within the Group:

The Company is a part of the of the Komerční banka financial group (hereinafter the “KB Group”) and also a part of the international financial group of Société Générale (hereinafter the “SG Group“). The majority owner of Company’s 51% of shares, is the insurance company SOGECAP S.A. France (hereinafter “SOGECAP”), a SG’s wholly-owned subsidiary. The minority shareholder is Komerční banka a.s. (hereinafter “KB”) which holds 49% interest. SG as the majority owner and KB act in concert.

The Company focuses on life insurance services but also sells other types of insurance that suitably complement banking and other financial products offered by its partners within the SG Group. The company’s products are mostly distributed via the KB Group members, especially through the distribution network of KB (eg. Modrá Pyramida stavební spořitelna, ESSOX) and also the Company’s external partners.

As a part of the KB Group, KB provides the Company with trade mark licences and also certain IT services, data processing and consultancy. Within the SG group a particular infrastructure of the IT technology is shared as well as knowledge in the area of the insurance and provision of financial services, development of financial services and products, operation of information technologies, risk management, regulation of financial markets and a company management.

The Company provides data to the KB and Sogecap on a regular basis - the data include, inter alia, data for consolidation purposes or consolidated reporting to the regulators or data for publishing purposes, budgets, business plans, anti-money-laundering measures and a business continuity plan.

The Company does not participate in the creation of the Group policies in the Czech Republic.

Ways and means of control

SOGECAP, as the majority shareholder, exerts its influence on the activity of the Company through the General Meeting; SOGECAP had two representatives in the Company’s three-member Supervisory Board during the year 2021. The minority shareholder KB had one representatives in the Company’s Supervisory Board in the year 2021.

SOGECAP is, pursuant to Section 79 of the Corporations Act, a controlling entity in respect of Company. The control is formally exercised by the implementation of SOGECAP’s methodologies in the Company’s internal regulations, in particular in the area of risk management and capital adequacy (solvency). Furthermore, there is an informal control taking the form of consultancy in individual areas of the Company’s activity.

II. Arrangements with Related Entities

A. Significant transactions made in the reporting period at the initiative or in the interest of the controlling entity or entities controlled by the controlling entity and relating to assets exceeding 10% of the Company's equity as determined based on the financial statements for the reporting period immediately preceding the reporting period for which the Report on Relations is prepared

C. An Assessment of the Advantages and Disadvantages Arising from the Relations within the Group and an Assessment of Injury

The Advantages and Disadvantages arising from the Relations within the Group

Since the acquisition of Komerční banka a.s. by SG in 2001, the Company started implementing SG's bank-insurance business model. This business model has been already fully implemented and today KP's products are offered and sold mostly through the distribution networks of SG Group companies. The whole Group takes advantage of mutual synergistic effects including product pooling, a strong international brand and SG's know how. The advantages of the Company's integration in the SG Group contribute to the Company's positive financial results.

Injury Assessment

The Company's Board of Directors has reviewed all arrangements put in place between the Company and the companies that were part of the Group during the 2021 reporting period and states that the Company incurred no injury as a result of any contracts, agreements or any other legal acts made or implemented by the Company or as a result of any other influence otherwise exerted in the reporting period.

Prague, on 31 March 2022

Gaël Loaec

Chairman of the Board of Directors and CEO

Helena Indrová

Member of the Board of Directors
and Head of Financial Section
